EIGHT DEAD IN AIRLINER CRASH

REPORT CADIZ, REBEL CITY, CAPTURED

SOME ASTOUNDING DISCLOSURES ABOUT REVOLUTION PLANS

FORMER SPANISH MINISTER OF WAR PLANNED MADRID ATTACK LAST FALL

By The Associated Press.

Fall of the rebel city of Cadiz, Spain, before a bitter loyalist attack was reported today in Madrid as astounding disclosures were made of pre-revolution plans for the uprising in Spain's official family.

Puzzled by the strength of rebel positions in the Guadarrama mountains, leftist government functionaries said they had learned of indications that Jose Gil Robles, former minister of war, was planning for an attack on the capital city as early as last fall.

They said that bomb-proof gun emplacements had been started during army maneuvers with a view to using them to overthrow the present liberal government.

Meantime, Spain's loyalist troops smashed at northern rebel strongholds today even as the generalissimo of the Spanish insurrection ran a blockade of government warships to land 4,000 Moroccan reinforcements on the peninsula for the march on Madrid.

Surrender of 2,000 rebels on the Aragon *front*, Barcelona advices said, had opened the road for a further loyal advance on Zaragoza.

Drive From Air.

Implementing its war on the insurrectionists, the Madrid liberal regime announced a drive from the air "without mercy" with as many as 300 airplanes to wipe out fascist forces throughout Spain.

The Fascists, too, were preparing themselves for a war in the air by notifying salesmen for fighting machines they were in the market for good planes.

In a five-hour battle in the Straits of Gibraltar Gen. Francisco Franco, the motive power of the revolution, succeeded in delivering reinforcements to the peninsula from Spanish Morocco

Dallas Taxicab Driver Kills His Wife and Self

DALLAS, Aug. 6.—(AP)—George Rowley, 23, a taxicab driver, and *his estranged wife, Geraldine, 18,* were killed in a double shooting in a ticket booth just outside the Texas Centennial grounds here today.

Police said they were informed Rowley shot himself in the right temple with a pistol *after a bullet,* fired into Mrs. Rowley's back, killed her. She was sitting at a table selling Centennial tickets.

Two persons saw Rowley shoot himself, police said, but they could locate no witnesses to the shooting of the woman.

Rowley and his wife had been estranged for about three weeks, according to police.

Justice of the Peace John Baldwin returned a verdict of murder and suicide, ruling that Rawley first shot his wife and then killed himself.

The Rowleys married two years ago and separated about three months ago. Since then Rowley, police learned, had tried repeatedly to induce his wife to live with him again, but she refused.

Mrs. Rowley is survived by her mother, Mrs. Betty White and three sisters, Pauline, Alvine and Gradine, all of Dallas, and her father, G. E. West of Kilgore.

Carpenter Says New Revenue For Pensions Needed

AUSTIN, Aug. 6.—(AP)—Orville S. Carpenter, old age assistance director, said today pension finances were in good shape at present but new revenue would be needed by January 1.

Need of additional funds for pensions has been mentioned as a possible basis for a special session of the legislature this fall. Governor Allred has been studying the situation.

"We will get along all right, I think, until January," Carpenter said, "but then we will need more money."

He estimated that after distributing *$925,000 to approximately* 60,000 pensioners on August 1 about $1,100,000 remained in the treasury.

"Regular income from liquor taxes is running about $300,000 a month," he said, "and in September we expect approximately $500,000 from annual license fees.

The federal government will continue to do its bit, he added. It matches state funds.

Karpis and Others Entered Alcatraz Prison Thursday

SAN FRANCISCO, Aug. 6.—(AP)—Alcatraz prison doors opened today for kidnaper Alvin Karpis and other "incorrigible" Midwestern convicts.

The prisoners were unloaded at the Oakland mole today from the heavily guarded railroad cars on which they were brought from Leavenworth prison and ferried to the escape proof prison in San Francisco bay. Guards allowed no one near the convicts.

Many Unemployed Skilled and Semi-Skilled Workmen

AUSTIN, Aug. 6.—(AP)—The employment service reported to the planning board today there were 12,000 skilled and nearly 15,000 semi-skilled workmen still unemployed in Texas.

Failure of the Public Works Administration ot allocate funds to Texas, on grounds there was insufficient skilled labor to complete old projects and start new, *gave rise to the report.*

Maj. E. A. Wood, secretary of the planning board, and three associates were en route to Washington to confer with Harold L. Ickes, PWA administrator, and Harry Hopkins, WPA administrator, on PWA funds.

MONGREL PUP, UNDER SENTENCE OF 26 MONTHS CONFINEMENT IS OFFERED CAREER IN MOVIES

BROCKPORT, N. Y., Aug. 6.—(AP)—Idaho, the tawny mongrel pup under sentence to 26 months confinement as an animal dangerous to swimmers, today began a two weeks "vacation" with a Hollywood movie career held *temptingly before him.*

Harry Sessions, attorney for Victor Fortune, youthful owner of the pup, said several motion picture concerns were dickering for the services of the shaggy half airedale, half police dog.

Young Fortune said he was so pleased over his pet's release from the threat of destruction as a dangerous animal that he had no plans for the dog in mind.

Rene Castle McLaughlin, famous dancer noted for her protective work for unwanted dogs, has telegraphed Fortune that she would be happy to take Idaho into her dog refuge "Orphans of the Storm," at Chicago.

The seven months old dog, accused of causing the drowning of a boy swimmer, was turned over to Miss Mary Foubister, secretary of the Rochester Dog Protective Association, after his trial in the village hall yesterday.

She said she would take him to Canandaigua Lake for two weeks before turning him over **to his master.**

Declared Cotton Picker Shortage Most Critical

BROWNSVILLE, Aug. 6.—(AP)—The Mercedes Chamber of Commerce asked Congressman Milton H. West at Washington to seek suspension of immigration rulings to meet the Valley's critical cotton picker shortage.

Growers petitioned that Mexican labor be allowed to enter the Valley freely. They said they feared the crop would suffer damage if the emergency was not met at once.

West said he would confer with the commissioner of immigration.

Unverified reports said the first 250 negroes of 2,000 to be imported *by a corporation operating 50* gins, were en route here, and would be available for work today.

Growers blamed the labor shortage on truckers from the Corpus Christi territory. They said the truckers were under contract with growers there to bring in labor and had virtually depleted **this territory of pickers.**

GARNER DECLARES GOVERNMENT SHOULD GET OUT BUSINESS

APPARENT RECOVERY IN PAST THREE YEARS STRESSED IN DALLAS TALK

By FELIX R. McKNIGHT
Associated Press Staff Writer

DALLAS, Aug. 6.—(AP)—The outspoken wish of Vice-President John Garner to "get out of this business of the government in business" was on the record today.

He dropped from droll humor to briefly refer to the matter in one of his rare public appearances before a banquet crowd of 2,000 cheering fellow Texans.

Mr. Garner lauded Jesse H. Jones of Houston, chairman of the Reconstruction Finance corporation, as "the best servant we ever had at the head of any bureau," and then added:

"I recall that Jones came to me to help him get more power on a certain matter. I told him, 'no, I want to take some of your power away.' I want to get out of this business of the government in business."

The vice-president called attention to the healthy condition of business in general and banking in particular. He invited listeners to look at statements of two large Dallas banks and compare the statements *of* July, 1933, and July, 1936.

Roosevelt Didn't Prevent

You will find the totals have doubled," he said. "Railroad tonnage has increased and one railroad recently paid back $3,000,000 *it borrowed from Jesse Jones.* I don't say President Roosevelt did it but I will say this—He didn't prevent it from being done!"

His audience cheered and laughed heartily.

Mr. Garner defended his action in declaring for Governor James V. Allred prior to the recent demo-

STUDENT PILOT IS "STUCK" IN AIR AS CONTROLS JAMMED

FORCED TO TAKE TO PARACHUTE AFTER WORKING ON PLANE AN HOUR

SAN ANTONIO, Aug. 6.—(AP)—Being "Stuck" in the air is not an ordinary experience, but Lieut. Herbert B. Thatcher, student pilot of the advanced flying school, Kelly Field, had such an experience today.

He was flying an 0-19 observation training ship, in a three ship formation, when the controls stuck.

The instructor, Capt. S. E. Anderson, noticed Lieut. Thatcher was not flying well, and flew over beside him. The student signalled his controls were jammed, and that he was unable to keep in formation.

For about an hour he tried to regain control of the plane, but failed. During that time he flew in wide circles. The plane would circle but would not climb or descend.

Finally Lieut. Thatcher jumped with his parachute, landing about six miles southwest of Kelly Field. His abandoned plane was not immediately located.

Seven Killed in Head-on Crash of Two Automobiles

NILES, Mich., Aug. 6.—(AP)—Two automobiles crashed *head-on* three miles south of here today, killing seven persons.

Three of the victims were privates from Fort Jefferson, Mo., remaining here overnight en route to the scene of extensive army maneuvers which begin today in Southwestern Michigan.

The dead:

Joe Hill, 22, Niles, driver of one of the cars.

Privates Eugene Newby, 23; Howard S. Kelley, 23, and Herbert Mizer, 18, all of St. Louis, who were riding with Hill.

Roy Warner, 22, Culver, Ind., *driver of the other automobile.*

Richard A. Peterson, 22, South Bend, Ind.

Lorene Barr, 19, Mishawaka, Ind.

Peterson and Miss Barr were passengers in Warner's machine.

Sheriff's officers experienced difficulty in piecing together the details of the crash, since no occupant *of either car survived.*

GREEN'S BIG ESTATE APPEARS BE HEADED FOR COURT BATTLE

WILL HAS BEEN FILED LEAVING ALL TO SISTER; NOTHING TO HIS WIDOW

NEW YORK, Aug. 6.—(AP)—Col. Edward H. R. Green's huge estate, part of which he inherited from his mother, Hetty Green, appeared likely today to become the prize in a legal battle

Mrs. Mabel Harlow Green, the financier's widow, and Mrs. Matthew Astor Wilks of New York, his sister, each has filed conflicting legal documents looking to settlement of Col. Green's fortune, estimated by his associates to be worth more than *$80,000,000.*

Mrs. Green was named temporary administratrix by County Judge Ben Brooks in Kaufman, Tex., July 29. If no protests to her petition are filed by Monday, Judge Brooks said yesterday, he would make the appointment permanent.

Mrs. Wilks, the only surviving *child of* Hetty Green, was named sole beneficiary and sole executrix of her brother's estate in a will filed last Saturday at Port Henry, N. Y.

The document filed at Port Henry included no provisions for Mrs. Green.

Colonel Green announced at the time of his marriage he had given his bride a wedding present of $500,000 in cash and $125,000 in Liberty bonds. Before marriage his widow was Mabel E. Harlow of Highland Park, Ill.

Col. Green died at Lake Placid, New York June 8.

The will is to be formally probated September 8 at Port Henry, N. Y., the by the testimony and affidavits of witnesses and by authenticating documents.

Both claimants to the estate are indepentently wealthy.

DAILY TEXAN APPEARED WITH TWO EDITORIALS ELIMINATED BY NEW FACULTY CENSORSHIP

AUSTIN, Aug. 6.—(AP)—The University of Texas campus newspaper, center of a "press censorship" controversy appeared today with two editorials eliminated. *Approximately eight* columns of reading matter concerning its plight had not been materially changed, however.

Granville Price, former New York and Galveston newspaperman, who *is faculty supervisor* of the Texan, killed two editorials because they dealt with state and national political questions.

Comment on controversial political questions was ordered excluded in the board of regents' new rule which already has been denounced by a congressman, a state *democratic* executive committeeman and others who term it "censorship."

An editorial, "Which Is The *American Way?*" was left standing. It contrasted the new regulation of the Texas regents with the creed of the University of Wisconsin. The only other matter in the column was the editor's explanation of the elimination of two editorials.

The ear on the left side of the front page said: "Today's *editorials—censored.*" That on the right side gave as "today's quotation" the following: "'Those who would censor speech, then, whether they mean it or not, set themselves the task of impeding, if not stopping mental growth. And, I repeat, the right to be a man cannot be divorced from the right to become a man.'—T. V. Smith."

Seventh Day of Rain in Former Drought Sector

PUEBLO, Colo., Aug. 6.—(AP)—Cottages were toppled into the *raging waters of Fountain river* here today as that stream swept into Pueblo at Flood crest, forcing evacuation of 200 patients from an annex of the state hospital.

Two cottages on the hospital grounds fell into the stream as the water cut under their foundations. There was no loss of life, *officials of the hospital reported.* One large brick building was partially undermined.

WALSENBURG, Colo., Aug. 6.—(AP)—Workers hoped for a cessation of rain in this erstwhile drought sector as they again turned to rehabilitation work today on the heels of a second threatened flood averted last night by dynamiting a bridge over swollen Cucharas creek.

Walsenburg, experiencing its seventh day of heavy rains, is in an area designated ten days ago by the federal government as an *emergency drought district.*

A carload of food supplies and blankets for flood victims sent by the federal emergency relief administration arrived here yesterday.

Greek Premier Plans to Stamp Out Communism

ATHENS, Aug. 6.—(AP)—The "strong man" of Greece, Premier John Metaxas, tlod the nation today he was going to crush communism.

Exercising a strong, if temporary *military dictatorship to cope* with a general strike he said was fostered by communists, the premier announced martial law would be strictly enforced until the nation was "secure against communist agitation."

The whole nation, he added, must be "disciplined."

SEVEN EUROPEAN NATIONS AGREE TO NON-INTERVENTION

FRANCE LINES UP PRINCIPAL POWERS FOR SPANISH HANDS-OFF POLICY

PARIS, Aug. 6.—(AP)—France today lined up seven European nations—including Great Britain, Germany, Russia and Italy—behind her proposal for a non-intervention policy in Spain's civil *war in an effort to insure the* continued peace of the continent.

The other nations approving "in principle" a hands-off policy in Spain's fractional conflict were Belgium, the Netherlands and Czechoslovakia.

Both the Soviets and Italy attached reservations to their complete accord.

ROME, Aug. 6.—(AP)—Italy accepted today the French neutrality proposal for non-interference in the Spanish rebellion.

The Italian answer agreed to the "hands off" suggestion "in principle" but reserved the right to ask for clarification of her position in the agreement.

Veteran Officer Is Under Murder Charge

DALLAS, Aug. 6.—(AP)—Roy Odom, veteran deputy constable was under $5,000 bond today on a charge of murder in the shooting yesterday of John Harris, negro, when Odom went to Harris' house to serve a sequestration order.

The murder charge, filed after Justice of the peace, John Baldwin returned a coroner's verdict of "legal homicide" was on orders of Julian Capers, a grand jury bailiff, officials said.

Odom and Deputy Lee Combs said the *negro* leveled a *shotgun* at them.

Many Election Judges, Clerks Are Discharged

CHICAGO, Aug. 6.—(AP)—The Cook county board of election commissioners discharged 485 *judges and clerks* of election who worked in the April primary today after four months of investigation into irregularities at the polls.

Approximately 200 of the group faced prosecution by the state's attorney's office on charges, including making erasures on tally sheets, making false entries and *permitting* illegal voting.

Alexander J. McKay, president of the board, said the number discharged "was probably the greatest number of election officials ever discharged at one time."

"They will never serve again," he added.

Half of those dismissed were women, McKay said. He said those who did not face prosecution had committed irregularities and were negligent but that the evidence against them was not deemed sufficient to warrant **state's attorney's action.**

BIG LABOR FIGHT PREDICTED RESULT LEWIS EXPULSION

MINE WORKERS HEAD AND ONE MILLION FOLLOWERS OUSTED FROM AFL

WASHINGTON, Aug. 6.—(AP)—A tremendous fight to a finish between two huge factions of labor unionists, with countless factories, shops and mines as the scene of action, threatened today after American Federation of Labor leaders decided to suspend John L. Lewis and 1,000,000 of his followers for "rebellion."

Already there was talk in the Lewis camp of forming a rival federation. Informed labor circles saw the possibility that the two formidable groups would compete fiercely for each other's members and for new recruits.

There was varying speculation as to whether the A. F. of L. might go under in such an evolutionary struggle, as the old knights of labor did decades ago, or whether it would emerge triumphant over the "rebels" who dared to defy it.

The decision of the A. F. of L. executive council, announced last night after a three days' "trial," was that the Lewis group, comprising the United Mine Workers and nine more of the strongest and richest unions, should be suspended indefinitely unless they repented within 30 days.

Little Hope of Peace.

True there was still time to restore peace within the divided ranks of labor, but bitter pronouncements from both sides gave no hint that peacemakers would be successful.

To avoid suspension, Lewis, the United Mine Workers' head, *must* disband the committee for industrial organization, through which the 10 affiliated unions are trying to organize mass production workers into huge industrial unions, regardless of craft lines.

"We will *not* disband the committee for industrial organiza-

Publicity Agents Lose Round When Garner Says "No"

DALLAS, Aug. 6.—(AP)—Those Centennial publicity boys, who think the best stunt of all is to surround a celebrity with rangerettes and shoot his picture, tasted defeat when they tackled Vice-President John Garner at the exposition here.

"Catcus Jack" is an ardent fisherman but when the Centennial promoters tried to put a rod in his hands and, with the encouragement of a lair of rangerettes, try to hook the lone bass in the reflecting basin, that was too much.

"Hell, No, I'm not going to fish," asserted the vice president. And he didn't.

Incidentally the Lone Bass for which they wanted him to fish had been obtained from the exposition aquarium.

CHICAGO-SOUTHERN LINER FALLS NEAR ST. LOUIS AIRPORT

CAUSE OF ACCIDENT SHORTLY AFTER LINER TOOK OFF UNEXPLAINED

By HENRY B. JAMESON
Associated Press Staff Writer.

ST. LOUIS, Aug. 6.—(AP)—All eight persons aboard a Chicago and Southern airliner were killed in an unexpected crash near Lambert-St. Louis airport last night.

The wreckage, strewn through a plowed field for 200 yards, was not found until early today almost four hours after the plane plunged to the ground.

Investigators seeking the cause had only the ship's intact instruments and the story of an eyewitness to aid them.

Carried to their deaths in the crash were:

W. S. Bartlett, Chicago.
C. B. Wright, 18, Hinsdale, Ill.
D. R. McDavitt, Chicago.
George Grashaber, Chicago.
A. R. Holt, Boston.
Vernon C. Omlie, Memphis.
Carl Zier, Chicago, the pilot,
Russell Mossman, New Orleans, the co-pilot.

Plane Banked Steeply.

Ralph L. Sharp, Fairfield, O., visitor at a farm near the scene of the crash, said he saw the plane bank steeply and turn back toward the airport, from which it had taken off a few minutes before, en route from New Orleans to Chicago.

He heard the plane crash a moment later after it went over a knoll and was obscured from his view.

George Beklmann, on whose farm the ship fell, said he heard the plane and noted the unusually loud roar of its motors.

Searchers found the bodies of the pilot and co-pilot, their arms locked about each other, about 50 feet from part of the wrecked cabin.

Bodies of the passengers, many of them badly *mangled*, were scattered about the twisted main fuselage.

"When I first saw the plane it was barely off the gyound and

Forecaster of Snow, Drought Now Sees Floods

CHICAGO, Aug. 6.—(AP)—Selby Maxwell, the man who forecast *last winter's heavy snow* and this summer's drought months ahead of time, said today a wave of floods would soon develop in the United States.

He predicted a long series of rains would push rivers over their banks from the Gulf of Mexico to Canada, washing out the drought.

The *first* ripples of the flood wave had already appeared on the nation's weather map, he asserted, pointing to swollen streams in Colorado.

SECRET SERVICE AGENTS ARE DISCIPLINED FOR SNOOPING ON FEDERAL INVESTIGATION BUREAU

WASHINGTON, Aug. 6.—(AP)—Announcing the demotion of two secret service officials, Secretary Morgenthau said today he was "deeply shocked" to learn that secret service agents had "taken it upon themselves to investigate *activities of the Federal Bureau* of Investigation."

He announced the demotion by one grade of Assistant Secret Service Chief Joseph E. Murphy and the demotion to field service of Grady Boatwright, formerly in charge of the St. Paul bureau.

The treasury head made public a letter to Attorney General *Cummings, expressing "deep* regret to you and your department for this irresponsible action and to assure you that suitable disciplinary measures will be taken."

An investigation by W. H. Oran, chief of the secret service, and other high treasury officials has been in progress since Attorney General Cummings told newsmen at a press conference there had been "ill-advised" investigation of justice department agents by another government agency.

Reports received by Cummings were that secret service men at St. Paul had made inquiries into circumstances surrounding the shooting to death of Eddie Green, a Dillinger **gangster.**

Two Killed And Thirteen Injured In Bus Accident

HUNTINGDON, Pa., Aug. 6.—(AP)—A Pittsburgh to New York (Greyhound) bus overturned twice in a rainstorm on a mountainside 12 miles west of Huntingdon today, killing two persons and injuring 13.

Six of the 15 passengers were trapped beneath the wreckage and rescuers toiled four hours before the last two women, both conscious, were taken out.

The bus company announced the dead were identified as Frank Haluk, 48, of Youngstown, O., and Miss Florence K. Corrigan, 25, of Cleveland Ohio.

A STRANGE ROADSIDE MEETING THAT HAS CHANGED HISTORY *

Aristocratic Young Jewish Scholar, a Persecutor of Christians, Encounters Marvellous Experience on Damascus Road---The Power That Changes Times, and Makes Men Great.

By WILLIAM T. ELLIS

I fear that many young men today, even of those who are highly educated, are not aware of the greatness of the times in which they live. That fact is a social disaster worse than drought or floods or earthquakes. For the one supremely important thing in life is the attitude and character of human beings. To dwell in a day of destiny, and to know it not, is nothing less than tragedy. Not for a century past has there been such a call for high, heroic living as today. Vast events are shaping; and their outcome depends wholly upon the sort of men and women who rise to the emergency of guiding them. If Europe could transform such commonplace men as Mussolini, Hitler and Stalin into dictators of destiny what should be not rightly expect of the better stock of the United States and Canada?

"We are living, we are dwelling,
In a grand and awful time;
In an age on ages telling:
To be living is sublime."

An Hour For Leaders.

Like a clarion call from an enabling heaven and from a needy earth, comes the summons of this Lesson to young men to do something splendid with their lives. Our Scripture is the story of a brilliant, conventional young Jew, named Saul of Tarsus, who was a militant servant of the old order, until he saw a great Light, and found a greater mission, and became one of the flaming, deathless heroes of history, a leader whose influence has continued increasingly to this day. His career is a challenge to our young Sauls to discover his secret, his motive, his Power and then, like him, to fling their lives into the same service, with utter abandon.

Every community, and every group and cause in our time, is waiting for new leaders, full of the impetuousness of youth, who cannot be deterred from their mission by little criticisms or petty obstacles. Civic organizations, service clubs, political parties, social groups, and especially, churches and Sunday schools are crying out for new and nobler leadership. What a mission of might awaits the young men who see in the millions of members of the Sunday schools a field for fullest service. The great ones who once fired the Sunday school is crusading zeal are dead, and without successors. Locally and nationally, the need is acute for men and women dominated by a passion for Christ and for childhood.

Nobody becomes great by seeking greatness. Only by devotion to great causes, in self-forgetful service, is real leadership attained. Saul possessed a passion for ministry; it mattered not to him whether it was large or small; and, lo! without his intention or expectation he became one of the loftiest figures on history's horizon.

Ciphers And Digits.

Most of us are ciphers, until we put our lives on the right side of the proper digit, or personality. No zero was this university-bred young man of Tarsus, but he did not come into his life of leadership and power until he had ranged himself alongside of Jesus Christ as the Master who set his soul on fire.

This story of the changing of the life of Saul is a romance of never-ending interest. He was early a marked man, in high favor with the leaders of his nation at the capital. When anything was going forward for the preservation of the status quo, he was in it. At the stoning of the first Christian martyr, Stephen, he stood, hot-eyed, on the edge of the mob, egging them on and guarding their garments—for his social position as an aristocrat kept him from being one of the rabble of stone-hurlers. Nobody beholding the scene, least of all the Christians, could have imagined that this fierce fanatic, this intolerant inciter of persecution, was destined one day to be the outstanding leader of Stephen's sect of Christians, and a world figure whose influence would outlast any existing empire.

Not Learning, But Light.

Herein we find an impressive paradox, not without present significance. Saul was changed from persecutor to propagandist, not by an elaborate process of reasoning, such as we would naturally expect in the case of an intellectual like him, but by an emotional experience. Supercilious sophisticates in our time decry religious emotionalism. They write down revivals as primitive. Such critics overlook the accepted place of emotion in human relations, in patriotism, in social service and in literature. Yet they cannot get away from the historic fact that the Apostle Paul, who was one of the intellectual giants of the ages, was converted to Christianity, not by philosophy, but by a vision. One day he met Jesus on the Damascus Road, and that changed everything for him. It is not great brains, but great hearts, that are going to save our civilization. Not learning, but spiritual Light, will show us "the way out."

Doubtless, this Saul, had he not taken the Damascus Road, would have developed into one of the learned, dry-as-dust theologians of the Jewish Sanhedrin. Under the impact and impulsion of Jesus Christ he became far greater, in every respect, than would have been otherwise possible. His keen mind sensed this. His later writings are full of discussion of the sufficiency of Christ. Deliberately, he wrote down as a life principle, in simple words that have been the stimulus of uncounted Christians since, "I can do all things through Christ who strengtheneth me." Conversion may do more than college for a young life.

This absorbing sense of the power of Christ became the life passion of the Apostle Paul. It begot everything for him. It took him into the presence of kings and councils, and made him a transforming force in the nations of his day. It gave him a new purpose in life, new and nobler intellectual conceptions, new standards for human conduct, new fellowships and new compensations. Truly could he say in the fullness of his experience, "For to me to live is Christ."

Blind, In Order To See

So dazzling was the light which smote Saul as he neared Damascus that it blinded him for three days—three days of such mental and emotional stress as we cannot imagine. He had seen Jesus. He had heard His voice. And this made a new man of him. He was to retire into Arabia for three years for the pondering of the new life and leading that had come unto him. Later, he was to spend sequestered years in Tarsus; for such a mighty mission as lay ahead of him needed profound pondering and preparation. To Saul it was given to become the foremost interpreter of Christ and of the body of Christian doctrine.

TOTAL OF 240 WELLS COMPLETED IN EAST TEXAS DURING JULY

KILGORE, Aug. 4.—(AP)—A total 240 wells were completed during July in the East Texas oil field, according to figures released today by the engineering department of the railroad commission's headquarters here. New completions brought the field's total to 21,095 wells.

Although there was no change in the proration schedule of 2.32 per cent of the field's hourly potential production, the allowable figure increased only 1,108 barrels. The small increase was due to lowering of the potential, following tests run by the engineering department at various points over th oil belt.

On August 1, the hourly potential amounted to 12,958,244 barrels and the allowable 429,918 barrels. Of the 21,095 wels in the field, 15,801 were classified as marginal wells.

Clothes Needed For Abandoned Baby Girl

It is understood that the blue-eyed, red-haired baby girl that was found Saturday about three miles south of Pursley, where she was abandoned, is badly in need of clothes and all the necessities a baby of four or five months of age would need.

Mr. and Mrs. J. M. Westbrook were so kind as to take the baby into their home to keep until it is decided what is to be done with it, and it would be of great assistance to them if anyone, having clothes for a baby of that age that are not in use, would donate them to the baby.

Whoever takes the baby after the court decides what is best for the child, will appreciate the donation.

The baby is four or five months old and weighs 11 1-2 pounds.

Those who desire to assist by donating such necessities as a baby require are asked to leave them at Mr. and Mrs. Westbrooks' home, 1018 West Sycamore.

Scenes From "Green Pastures"

The above scene from Marc Connelly's fable, "The Green Pastures," which won the Pulitzer Prize and has been a stage hit for five years, depicts the Bibical passage wherein Cain slays Abel. The picture comes to the Palace in three performances Sunday; two performances on Monday, and a Midnight preview on Saturday night. A special novelty, "Texas Centennial Highlights," showing high-spots of the Texas celebration activities is also on the program.

VICTIM OF TRUCK ACCIDENT NORTH OF CORSICANA BURIED

Funeral services for Marvin Lafrance Minor, 23, who was fatally injured about 4 o'clock Tuesday morning when a truck turned over in Zion's Rest, were held at Bardwell Wednesday afternoon at 3 o'clock from the Bardwell Baptist church, with interment in the Bardwell cemetery. M. M. Lockhart, Dallas News circulation distributor, driver of the truck, escaped wth minor injuries. The victim was the thirteenth automobile fatality in Navarro county this year. Minor was the operator of a newspaper route.

The rites were conducted by Rev. Gibson, Baptist minister of Mertens.

Surviving are his parents, Mr. and Mrs. J. W. Minor, and two brothers, Maxie Lee Minor and Willie R. Minor, all of Bardwell.

Corley Funeral Home directed the arrangements.

BROTHER CORSICANA WOMAN DIED FROM BULLET WOUNDS

NASHVILLE, Tenn., Aug. 5.—(AP)—Henry Pierce, 42, stove company guard who was shot during a strike disturbance, died today.

He was one of three men wounded yesterday when workers going to the Allen Manufacturing Company plant under guard clashed with pickets.

Mr. Pierce is a brother of Mrs. L. S. Cooper and made his home in Corsicana for about a year in 1934-35. He is survived by his wife, one daughter, Minnie Laura; his parents, three brothers and other relatives.

According to information received in Corsicana funeral services will be held in Nashville Thursday.

Mr. and Mrs. Cooper received the report of Mr. Pierce's death in Houston and left immediately for Nashville by automobile.

Eleven Trucks Of Untendered Gasoline Held

KILGORE, Aug. 4.—(AP)—C. F. Sullivant, administrative chief for the railroad commission in East Texas, said today that 11 trucks transporting untendered gasoline, gas oil and fuel oil had been stopped at Wills Point last night. He said 15 cases had been filed and confiscation suits against eight gasoline truck operators brought here.

First Bales

BRYAN, Aug. 4.—(AP)—Ignatio Fachon, Brazos county farmer, received 18½ cents a pound and premium of about $50 for the first bale of cotton of the new season to be marketed here.

WACO, Aug. 4.—(AP)—McLennan county's first cotton bale brought 20c a pound and a 6½ cent premium at auction today. C. Marcial raised the cotton. Exporters and Traders Compress Company were buyers.

SHERMAN, Aug. 4.—(AP)—Grayson county's first bale of cotton this season was marketed here today by Char' s McClellan for 13 cents a pound. Merchants also paid him a bonus. This bale came in 23 days earlier than the first last year.

ELGIN, Aug. 4.—(AP)—The first bale of Elgin cotton, grown by Arthur Giese, brought 13 cents a pound today. M. L. Rivers purchased the bale which also paid Giese a $52.50 merchants' bonus. Giese also grew Elgin's first bale last year.

STATE TAX LEVY REMAINS 62 CENTS BY BOARD ACTION

DEFICITS INDICATED IN PENSIONS FUNDS; GENERAL FUND ALSO SHORT

AUSTIN, Aug. 4.—(AP)—The automatic tax board set the state property tax rate today 62 cents on the $100 valuation, the same as last year.

The rate for the general revenue fund was set at 35 cents and that for Confederate pensions at seven cents, both the constitutional maximums.

The available school tax rate was set at 20 cents, same as last year, but not the constitutional limit.

The board is composed of Governor James V. Allred, Comproller George H. Sheppard and Treasurer Charley Lockhart.

"The board took into consideration the $19 per capital apportionment, set by the board of education, in fixing the ad valorem tax rate for the school fund," a statement said.

"It is estimated the general revenue deficit as of Aug. 31, 1936, at $9,505,741.90. Anticipated collections from ad valorem taxes for general revenue under the 35 cents state rate was computed to be $8,800,241.85, leaving $75,500.15 of the deficit to be absorbed by other revenue."

The Confederate pension fund would have a deficit of $5,101,430.70 at the end of the fiscal year, the board estimated, and the school fund a cash balance of $1,293,797.55.

"This estimate reflects the balance after the payment of the $18.50 per capita apportionment set by the board of education for the fiscal year just ending," the board said.

Ethiopians Are Advancing Upon Important Cities

PORT SAID, Egypt, Aug. 5.—(AP)—Ras Imru, Ethiopian commander in the northwest, was authoritatively reported today advancing on the cities of Dessye and Addis Ababa with 40,000 warriors.

The Ethiopian columns were said to be advancing from the west in the general direction of the capital and the principal city on the northern end of the mountain road leading to Addis Ababa.

Many Italian outposts were reported to have been destroyed during the Ethiopian advance.

Zioncheck Will Seek Reelection Seat in Congress

SEATTLE, Aug. 5.—(AP)—Marion Anthony Zioncheck (D-Wash.), sought re-election to congress today at his mother's request, to prove he is "neither crazy nor foolish."

"At all times I wanted to file to succeed myself in congress, but I was advised that my mother's breakdown, caused by malicious and largely false reports about my activities, made this course inadvisable," said Zioncheck.

"Later, however, my mother asked me to run to show the people that I am neither crazy nor foolish."

In a surprise declaration of candidacy yesterday, only three days after he said he would not seek re-election, Zioncheck became the sixth Democrat and No. 13 on the list of those who seek the post from Washington state's first congressional district.

DROWNING OF BOY NEAR BROWNSVILLE IS BEING PROBED

BROWNSVILLE, Aug. 5.—(AP)—The drowning last April of Tommy Bachman, 9, was under investigation again today after 12-year old schoolmate revealed, according to police, that he held Tommy under water "until he drank a lot of water."

The story of the drowning came out, police said, while they were questioning the boy about a burglary.

The boy was seen leaving school with Tommy the day of the drowning, which occurred in a "resaca" near Brownsville. The boy told police he was "chased from the resaca by two other boys who were ducking Tommy when I left."

He named two boys who were arrested with Bachman's clothing, but who told police they found the clothing hidden. These boys were released later.

Charges of delinquency will be filed, police said, against the 12-year old boy.

Tributes Paid to Mrs. John Garner Dallas Luncheon

DALLAS, Aug. 5.—(AP)—Luncheon hostesses gave tribute today to Mrs. John Nance Garner, wife of the vice-president, as a "noble woman—whose type it was that in elder days inspired the deeds of heroes ...."

Mrs. Garner accompanied her husband here for his visit to the Texas Centennial Central exposition. Mrs. Fred F. Florence, wife of the Centennial's president, gave formal greetings. Mrs. Garner responded.

Mrs. Cullen F. Thomas, wife of the United States Centennial commission chairman, addressed the gathering.

Programs bore Mrs. Garner's picture.

The tribute to the nation's second lady, read in part:

"...Whose distinction it is to have brought new laurels to American womanhood, and the crowning glory of whose life is her consecration to the exalted duties of wife and mother...

"All Texas loves and honors her."

Included on the reception committee were Mrs. James V. Allred, Mrs. Nelson Phillips, Mrs. Walter F. Woodul, Mrs. A. H. Bailey, Mrs. R. L. Thornton, Mrs. Harry Olmsted, Mrs. John D. Middleton, of Greenville; Mrs. Frank N. Watson, Mrs. J. Percival Rice, Mrs. W. A. Webb, Mrs. Arthur L. Kramer, and Mrs. George Waverley Biggs.

FEDERAL TAXATION AND SPENDING TO BE SUBJECT OF LANDON

TOPEKA, Aug. 5.—(AP)—Federal taxation and spending developed today as the probable subject of the West Middlesex, Pa., speech in which Governor Alf M. Landon will open his eastern campaign for the presidency.

This talk in the heart of the Mahoning Valley cluster of steel, coal and industrial activity was scheduled for Saturday afternoon, August 22. Two days later, Monday night, August 24, the republican nominee plans to speak at Chautauqua, N. Y., boyhood vacation spot. On Wednesday night of the same week a major address is scheduled at Buffalo.

Landon headquarters made known this sketch of the first campaign thrust into populous eastern territory as the nominee completed pressing state busibusiness and national political conferences preparatory to a combination work and recreation trip to his Estes Park, Colo., summer ranch. He is expected to return to Kansas for a short stop before traveling eastward.

ABANDONED BABY WILL BE ABOPTED BY LOCAL COUPLE

W. H. SWEARENGEN AND WIFE, OPAL, RELEASED ON BOND WEDNESDAY

W. H. Swearengen and wife, Opal Swearengen, both of Midlothian, were released on bonds of $250 each Wednesday morning at the conclusion of hearings before Judge W. T. McFadden on formal charges of abandonment and child desertion as the result of the leaving of Peggy Jean Swearengen, aged four months near Pursley, late Saturday night.

The little lass who had been cared for in the home of Deputy Sheriff and Mrs. J. M. Westbrook since Sunday morning was awarded to Mr. and Mrs. H. P. Rumbelow of near Corsicana in a temporary order issued late Tuesday by J. S. Callicutt judge of the Thirteenth judicial district court by Mr. and Mrs. Rumbelow and the final adoption papers and custody orders are expected to be entered in the district court Monday morning at 10 o'clock by Judge Callicutt.

Temporary Orders.

Judge Callicutt in his temporary custody orders issued late Tuesday specified that Deputy Sheriff Westbrook should make an investigation and report back to the Court Monday at 10 o'clock relative to the final adoption of the child by the Rumbelows.

Swearengen and his wife signed waivers giving their consent to the adoption of the child by Mr. and Mrs. Rumbelow, stating they were not able to properly care for the child and that they desired some suitable family adopt her.

Mr. and Mrs. Swearengen were arrested at Midlothian Tuesday and were returned to the Navarro county jail shortly before noon Tuesday by Deputy Sheriffs Westbrook and Allen Calloway.

The little girl was left by the roadside in a pasteboard box in which holes had been cut before midnight Saturday night and was found shortly after sunrise Sunday morning by J. W. York, a farmer residing near the site where the little child had been left. Several dresses and other articles of clothing along with a milk bottle were found in the box.

Many Interested.

Numerous interested citizens called at the Westbrook home daily to see the attractive red-haired and blue-eyed lass.

A wealthy Tyler couple, accompanied by an attorney, arrived in Corsicana a few minutes after the Rumbelows had been awarded the child Tuesday. Several Navarro county couples had signified a desire for the babe.

The Swearengens are being represented by Joe Edens Anderson and Roy Canady, local attorneys, who also provided the bonds.

The bonds are to await the action of the grand jury at the October term of the district court.

Revival at Black Hills

A revival meeting will start at the Baptist church at Black Hills Sunday, August 8. Rev. T. R. Vaughn will conduct the meeting. An invitation is extended the public to attend.

BABY PEGGY JEAN SWEARENGEN

—Daily Sun Staff Photo

The little miss of less than four months, pictured above, with curly red hair and bright blue eyes is now being cared for in the home of Deputy Sheriff and Mrs. J. M. Westbrook after she was found abandoned in a cardboard box on a country lane near Pursley early Sunday morning.

AIRLINER

(Continued from Page One)

making a steep bank," Sharp said.

"It appeared to be turning back for the airport.

"It went over a hill and I heard a terrible crash. The motors kept right on running.

Search Unsuccessful.

Sharp and Ben Havercamp, whom he is visiting, searched unsuccessfully in the dark for the plane before Sharp went to the airport and reported the crash.

Isolation of the spot, a small clearing surrounded by rolling ground, prevented ground crews from immediately locating the plane. Two company employes searching on foot finally found the wreckage after four hours.

A. L. Koch and Guy Faulkner, department of commerce investigators, examined the wreckage and airport records but would make no statements.

The bodies were removed by St. Louis County Coroner L. B. Tiernon, who scheduled an inquest for tomorrow morning.

The ship's clock, still running, was found shortly after dawn 100 yards from the main wreckage.

In Perfect Condition.

Carleton Putnam, president of the line, said the ship was checked at St. Louis and was in perfect condition.

"It was one of those things that can't happen but still did," he declared.

H. R. Moore, flight superintendent for the air lines' St. Louis office, reported the plane did not answer a radio call at 10:02 p. m., seven minutes after taking off from the airport.

Attempts to call the plane through Chicago failed and a check at Springfield, Ill., revealed it had not passed over.

Moore said 9 a. m. weather information on which Pilot Zier was cleared showed a 2,000-foot ceiling, overcast skies, moderate fog, visibility of 1 1-2 miles and a 4-mile an hour wind.

Airport records showed the ceiling dropped to 500 feet by 10:10 p. m., and the visibility to three-fourths of a mile.

Identity of Dead Man at Breckenridge Is Believed Known

BRECKENRIDGE, Aug. 6.—(AP)—A man believed to be G. G. Head of Abilene was found dead on the roadside west of here today, a bottle containing traces of acid at his side.

Justice J. W. Castleman rendered a formal verdict of death from acid poisoning, self administered.

In the man's clothing was a newspaper clipping telling of the burial of Mrs. G. G. Head at Abilene Saturday.

OPEN AIR REVIVAL OF C. P. CHURCH BRINGING RESULTS

The open air Gospel meetings conducted by the Cumberland Presbyterian church met with very apparent results last night when three young people received the Lord Jesus Christ as their Savior.

Rev. Edward Davis brought a very practical message on the subject: Is God Practical.

Preceding the message Rev.W. Heute, son of a missionary couple from Africa sang. Mr. Heute attends the Dallas Theological Seminary. His message in song was "That Rose With Its Sweetness is Blooming For You."

The meetings are attended by people from all churches, and no churches.

This revival is merely a soul-winning campaign—don't miss the blessing of seeing your friend saved. We invite you to attend and get under the real burden of praying and doing all you can for those who are on the verge of destruction.

Tonight, Rev. J. M. McDaniel of Corsicana will preach on the subject "Condition of Salvation". Rev. Mr. McDaniel has a good scriptural message for you.

The orchestra from White's Chapel will bring special numbers and also a special number in song by a quartet from the I. O. O. F. Home. The little girls from the Bible School at the Cumberland Presbyterian church will sing a scorus.

Location is the vacant lot at the corner of Fifteenth and Ninth avenue.

A service every morning at 10 a. m. in the Cumberland Presbyterian church.

You are invited to attend all these services.

Everyone enjoyed the day and hope they can all be together, another time. —Contributed.

Walsenburg, Colo. Ravaged By Flood Waters Last Night

WALSENBURG, Colo., Aug. 4.—(AP)—Tired volunteers searched for missing persons today in the flood-ravaged section in the heart of this Southern Colorado town, where the rain-swollen waters of the Cucharas river caused an estimated $500,000 damage last night.

Barricades were flung up about hundreds of evacuated houses in the flood area. Searchers combed the ruins for bodies of possible victims while anxious friends and relatives waited outside the barricades.

Sheriff Claude Swift said it was reported two automobiles were seen turning end over end as a wall of water rushed through here down the usually dry river bed.

The hotels and rooming houses of this town of 5,500 population were crowded with flood refugees and flood marooned tourists.

Authorities said Red Cross aid would be sought today for 200 homeless and destitute persons.

The river had subsided today, but water a foot deep covered parts of the business district.

Plano Couple Fatally Injured In Auto Crash

DALLAS, Aug. 5.—(AP)—Mr. and Mrs. Byron Robertson of Plano, Collin county, were fatally injured in an automobile accident on the Richardson road near here early today.

B. W. Eddleman and John Forshee of McKinney, occupants of the other car, said the Robertson automobile struck their car from the rear and turned over three times.

Robertson was pinned under the car. He died two hours later. Mrs. Robertson died in an ambulance.

Deputy Sheriff Bill Binford said Mr. and Mrs. James Hollon of Plano were in the Robertson car. He said his department had no record of their being hurt.

Police broadcasting systems sent out a description of Dick Robertson, brother of the victim, reported near Los Angeles driving to Texas. Officers said they wished to notify the traveler of his brother's death.

REVIVAL SERVICES OPEN SUNDAY LONE OAK C. P. CHURCH

Beginning 11 a. m. Sunday the Lone Oak Cumberland Presbyterian church will conduct a series of revival services, and are inviting all Christians to attend and help in this effort. The pastor will preach the opening service, and for the remainder of the first week a minister of the Baptist faith will do the preaching. For the second week we hope to have the services of Rev. Mr. Whitefield of Blooming Grove, but have not completed this arrangement at this date.

Sunday, August 16th will be "Home-coming day" and we wish all resident members of the community to come for this day's service and dinner on the ground. All singers also are especially invited to attend.

Will you help us make this effort a success for the glory of God and salvation of souls? No day services the first week. Night services will begin promptly at 8: p. m. —Pastor.

Son Born to Local Minister and Wife Tuesday Afternoon

Rev. M. Ewing McPhail, pastor of the Third Avenue Presbyterian church and Mrs. McPhail announce the arrival of a son, David Pendleton, at the Navarro Clinic, Tuesday, August 4, at 5 p. m.

Rev. and Mrs. McPhail's host of friends and acquaintances join in extending hearty congratulations to them.

MAN IS CHARGED BY FEDERAL AGENTS HARBORING CRIMINAL

MANUEL COX ALSO FACES CHARGES IN STATE COURTS BOWIE COUNTY

TYLER, Aug. 4.—(AP)—Manuel Cox was charged today with concealing and harboring the Oklahoma prison fugitive, Julius Bohannon, who was recaptured last Thursday near Daingerfield.

Ed L. Taylor, United States commissioner, said Cox, held in the Mount Pleasant jail, probably would be taken to Texarkana for arraignment on the federal charge.

Agent C. O. Hurt of the department of justice, one of the men who worked on the John Dillinger case, filed the charge.

Cox was bound over for grand jury action at Mount Pleasant on another charge—assault with intent to murder—and his bond was set at $750, which was posted, however, he was not released due to federal action in his case.

The assault charge originated in a shooting encounter between officers and a man alleged to have been Cox. About 20 shots were fired.

Bohannon, leader of the break from the McAlester, Okla., penitentiary in which a guard was killed and a score of prisoners escaped, is back in the penitentiary, Oklahoma officers having returned him the day after he was caught.

Sheriff Ben B. Garrett of Morris county, leader of the posse which captured Bohannon, said he had learned the fugitive and Cox, a filling station operator, had gone to a Naples boarding house and forced Mrs. Bohannon and her 9-year old daughter, Perline, into an automobile. They threatened her with a pistol, the officers said.

The sheriff said the four drove to Cox's house. There Cox and the girl Bohannon then drove with his wife to a little-used country road and stopped for rest. Sheriff Garrett's posse found them there and, after Mrs. Bohannon had knocked a pistol from her husband's hand, he surrendered.

Cox was arrested later at his home. He was returned to Morris county late yesterday after a habeas corpus hearing in Bowie county district court. Judge N. L. Dalby set a $2,500 bond for him then but he did not make it.

THE COLUMN CONDUCTOR
Says . . .

Considering how fine this railroad transportation is nowadays, you can't travel any cheaper. Fares lowest in history—substantial savings on round trip tickets. So why not take the train? It's safer. It's more dependable.

•

You can't beat the improved travel comfort in coaches and sleeping cars. It's a good thing movies don't have such restful seats—most folks would sure fall asleep.

•

Ever hear about the new Free pick-up-and-delivery of less than carload freight? It's a great convenience to shippers and receivers alike. Western railroads pick up at the door, ship by fast freight, and deliver to door at no extra charge.

•

Railroad trains are running on faster schedules these days. Seems like the iron horse wants to show these new streamlined diesels that he can step out, too. Both passenger and freight schedules have been speeded up.

•

What's more, the railroads believe in "safety first." Last year not one passenger was killed in a train accident on western railroads.

•

Talk to your local railroad agent. He's full of information about traveling and shipping.

•

We are proud of railroad achievements, appreciate the public's good will and increased patronage, and pledge continued progress.

REVOLT

(Continued from Page One)

with the aid of an airplane convoy.

The insurgents insisted they had sunk a government gunboat and damaged a government submarine.

The French government was cheered by the adhesion of seven European nations to its suggested policy of non-intervention in war-ridden Spain.

Among Approving Nations.

Among the approving nations were Germany, Russia and Italy, Russia and Italy attached conditions and questions to their acceptances, but the Quai d' Orsay announced it would proceed to put the policy into effect in the interests of European peace.

Poised only 36 miles from the capital to consolidate positions before continuation of the thrust southward, the fascist forces were described by the government as having been halted and subject to a "final, crushing blow" by loyalists.

But reports from the front indicated a slow, if painful, advance by the rebels. Feverishly the government poured reinforcements into the Guararrama mountain gateways in expectation of a three-way assault to halt the fascist drive.

The fiscist were in sight of the capital from their vantage point on the heights of mountain territory they captured in hand-to-hand encounter.

The government, nevertheless, was sanguine of the ultimate outcome of the rebellion. On the dawn of the 20th day of the revlt, it asserted it had captured the provinces of Catalona. Valencia, Murcia, Malaga, Culdad Real, Gudalajara, Badajoz and the northern resort city of San Sebastian.

The leftist army was being drastically reorganized.

Loyalist Attempting Final Crushing Blow

(Copyright, 1936, By Associated Press.)

MADRID, Aug. 6.—Loyalist troops thrust lines of steel into defensive mountain passes today for a "final, crushing blow" to fascist enemies.

The government poured reinforcements into the Guadarrama mountain gateways in expectation of a three way advance to halt the rebel march to Madrid.

The government announced the death of five rebel generals and capture of 11 others. Official hope was expressed the military rebellion would soon be suppressed.

The military masses blocked the insurgent march at El Alto Del Leon—the Heights of the Lion—and captured the small town of Gorgones.

On the northern side of the mountain front, rebels hastily moved men and arms into position in an equally vigorous preparation for prospective battle.

The fascists, from their high positions, were reported in sight of the capital buildings.

Reports reaching Madrid from the scene of bloody hand-to-hand fighting and artillery barrage showed no great advances by either side.

Fresh force was reported for the rebel drive in reinforcements from the south. Advices from Gibraltar described the landing of 2,000 fascists soldiers on the mainland after a running sea-and-air fight from Ceuta, Spanish Morocco.

An insurgent destroyer engaged a loyal destroyer in the foggy straits as war planes accompanying the rebel troops attempted to bomb the government vessel.

Cannon from Ceuta forts added their deadly missiles to the clash. One shell from one of the ships was declared to have landed on a race track in British territory. The loyal craft eventually retired and the troops disembarked.

Merciless Warfare From Air Is Planned

(Copyright, 1936, By Associated Press.)

AT REBEL HEADQUARTERS, BURGOS, Spain, Aug. 6. —(AP)—Surrender of 2,000 rebels on the Aragon front today opened the road for a loyal advance on the rebel stronghold of Zaragza, Barcelna advices said.

Simultaneously the liberal government announced the launching of a war by air "without mercy" against the revolutionaries.

Government troops were reported within 11 miles of Zaragoza in their drive to smash the fascist military machine in northern Spain and crush the threat of a rebel advance on Madrid from this area.

Government air forces, loaded with death-dealing bombs, will carry on a relentless warfare against Pamplona, Victoria, Burgos, and other rebel strongholds throughout Spain, the newspaper "Frente Popular," official organ of San Sebastian liberal authorities, announced.

Thirty airplanes to reinforce government air squadrons on the northern seaboard have arrived from Madrid.

The government plans to put into the air no less than 300 machines to crush the revolt.

The fascists, too, are preparing for a war in the air which their commanders believe probably will prove decisive in quelling the revolution or overthrowing Madrid's leftist government.

BOARD OF TAX APPEALS HAS ORDERED RECOMPUTATION OF INCOME TAX ABILENE ESTATE

WASHINGTON, Aug. 6.—(AP)—The United States board of tax appeals announced today it had ordered a recomputation of income tax deficiencies said to be due the government by the Guitar estate trust of Abilene, Texas.

The case involved a total of $51,343, representing alleged deficient income tax for the years 1927-31, inclusive, and an unlisted additional amount during the preceding five years.

Because a case dealing with deficient tax during the first five years of the ten-year period already was heard and returned to the board for rehearing, the amount involved in that peiod was not listed in the present case but was ordered to be recomputed along with the $51,353 item.

The ruling largely was a victory for the government, the opinion indicated, since the board denied the estate's request that the case be withdrawn on the grounds the government had not met the burden of proof required to show deficient tax against the estate on the basis that the estate was a trust.

The case arose from a 1932 ruling holding the estate was a trust instead of an association and should be taxed upon a trust basis.

Beneficiaries of the trust were John Guitar, Sr., his wife and their eight children.

The board ruled also that certain amounts credited to the invested capital accounts of the beneficiaries were not allowable as reduction in computing net income, that contributions to the Chamber of Commerce at Abilene to a fund used for opening a new road was not a necessary business expense, and that the estate was not entitled to deduct domestic dividends received from domestic corporations.

The board held for the estate, however, that amounts paid to employes at Christmas were compensation rather than gifts and were deductible, and that the estate was entitled to deduct as loss or business expense income amounts it erroneously reported in 1927.

America Calls For Property Protection

WASHINGTON, Aug. 6.—(AP)—The United States today called upon the Spanish government to provide adequate protection for American property in the revolutionary area, warning that it would expect adequate indemnification for any damage suffered.

On instructions from the state department, Eric C. Wendelin, charge d'Affairs of the American embassy in Madrid, told Spanish foreign officials the United States could not admit that the property of its nationals in Spain could be interferred with with impunity.

Wendelin reported after his call at the foreign office that the American representations were received with "sympathetic consideration."

Thus far the only interference with American property reported from Spain has been at Barcelona where elements aligned with the government have seized control of the plants of the Ford Motor company and the General Motors corporatin.

vided that neither her son's wife nor her daughter's husband could inherit the estate of Hetty's husband.

The will, filed in Westminster district probabe court here, left her husband's estate to Col. Green and Mrs. Matthew Astor Wilks, her daughter, "to the exclusion of any interest therein or control by any wife or husband whom she or he has or may wed."

Court attaches today began searching files for the document to learn whether she made the same provision for her own huge estate.

Her will was drawn March 28, 1911, and directed that the court should "not concern itself with the execution of her will."

Apparently, Probate Justice George H. Thompson said today, the will was observed. He said no record of settlement or distribution ever had been filed with the court as is customary.

catio primary election. He said he had been criticized by James A. Farley, chairman of the national democratic committee and continued:

"I'll tell you a little secret. Fifteen months ago I said I wanted to see the Texas delegation renominate Roosevelt and re-elect Senator Morris Sheppard. There was talk of Allred running against Sheppard so I just told him 'you run against Sheppard and I'll do my darnest to beat you."

Allred joined the crowd in laughter.

Refers to Roosevelt and Farley

"Mr. Roosevelt and Mr. Farley indorsed Governor Lehman of New York, so why shouldn't the vice-president indorse a man down here in Texas?"

The vice president lauded efforts of the Texas delegation of United States senators and representatives with the remark it was "the best of any state in the union."

"When some talk about the United States being in danger of going into a dictatorship or communism, they are indicting the Texas delegation because the members won't permit that to occur,' he said.

The ruddy, snowy white-haired Uvalde fisherman spoke lovingly of his "chief," President Roosevelt.

"oYu know, the president is a wonderful chap, he has one of the biggest hearts ever put in a man's breast. I had an agreement with the chief in 1933 that he was to do all the talking and I would do all the work."

He praised the Texas Centennial Exposition and spoke to 10,000 in the Cotton Bowl on the exposition grounds after his downdown speech. There he pleaded for peace on earth and said it was the cardinal hope of this and future generations.

Garner Recalls His Early Texas Home

DALLAS, Aug. 6.—(AP)—Memories of his boyhood days in a log cabin at Blossom Prairie were recalled today to Vice-President John Nance Garner when he visited a similar, reconstructed frontier home here today.

Garner and his wife visited the reproduction of the old John Neely Bryan home, erected on the court house lawn. The original Bryan home housed the family of Dallas' founder.

"Back in the eighties when this cabin was rebuilt, I was living in a cabin like this up on Blossom Prairie," the Vice-President recalled.

Years later he studied law and moved to Southwest Texas, becoming a political power in the borderland.

Blossom Prairie is a little rural community on the rolling prairie between Paris and Clarksville, in Lamar county.

Mrs. T. L. Westerfield, who invited the Garners to the cabin, asked the Vice-President to sign her register book. He complied, but declined to affix the vice-presidential title after his name. "I've never done anything like that," he said.

Garners Go to Fort Worth.

DALLAS, Aug. 6.—(AP)—Vice-President John Garner drove to Fort Worth today to see the Frontier Centennial before returning to his Uvalde home.

The Texan spent the morning at the central exposition here, greeting Governor Henry Horner of Illinois, a Centennial visitor, and helping dedicate the fair's administration buildng. Centennial officials named the building for Garner because of his interest in the Centennial.

Gov. Horner told the vice president he believed the Illinois electoral vote would go again to Roosevelt and Garner in the November election.

Garner, who stirred the political pot with his remarks at a public banquet last night, left for Fort Worth around noon, accompanied by Mrs. Garner. From there they will go to Uvalde to resume their vacation.

"Suicide" Lives For Hour After Verdict

FORT WORTH, Aug. 5.—(AP)—W. H. Scarborough, 78, a retired real estate man and resident of Fort Worth for many years, was listed a "suicide," although he lived for an hour and a half after the inquest verdict was returned and funeral arrangements announced.

Scarborough was found shot at 8 a. m. in his room. Dressed in pajamas, the elderly man was found lying across his bed with an old frontier type pistol grasped in one hand. A newspaper clipping, which recalled the arrival of the first train in Fort Worth, was near him.

Justice of the Peace Marvin Beaty conducted an inquest and returned the following verdict:

"Suicide death from gunshot wounds, self-inflicted.

Tennessee Governor Contest Attracting Principal Interest

NASHVILLE, Tenn., Aug. 6.—(AP)—Selection of a democratic nominee for governor in today's statewide primary overshadowed interest in the contest for United States senator between Nathan L. Bachman, incumbent, and Dr. John R. Neal, Knoxville attorney.

Gordon Browning of Huntingdon, 46-year old former U. S. representative and world war captain; Burgin E. Dossett, Jacksboro educator and former state commander of the American Legion, and C. W. Wright, Oneida lawyer, were the gubernatorial candidates.

The winner will oppose Thatch of Chattanooga, republican nominee.

DISINTEGRATION

Coin collectors say that you can tell the character of a past civilization largely by the appearance of its money. If the coins are clean-cut and artistic, with strong figures, they bespeak a correspondingly good public and private life at the time of their issuance. When the designs become careless and inferior, the civilization is running down hill.

Public life, the way a nation conducts its governmental affairs, affords a more familiar test of civilization, and one easily applied at the present day.

Look at Spain. Two or three centuries ago she was a great, powerful nation, representing one of the foremost civilizations in the world. Today she seems to have sunk to government by assassination and civil war. For a generation she was in a political ferment. With the exile of King Alfonso, "last of the Bourbons," and the establishment of a republic, hope was aroused for a new era of freedom and effective government along modern lines. But the five years of republican struggle have proved disappointing. There has been a welter of Democracy, Communism, Socialism, Anarchism, Fascism and Monarchism, with no group strong enough to maintain control, and no power of patriotic coalition. By parties and provinces and cities, the country seems to be falling to pieces.

That is, perhaps, the worst spot today in Europe, and yet there are half a dozen other countries merely held together by temporary tyrannies. What will happen if they are shaken off?

Is European civilization as a whole going to pieces? Sometimes it seems so.

MACHINE DEFENDS ITSELF

Men have been criticizing machines the last few years. Now the worm turns. The other day a machine in the New York Museum of Science stood up and made a speech in its own defense.

It wasn't a robot in the form of a man. It was just a talking slide-film contraption, a combination of an electric phonograph, with a series of still pictures projected on a screen. These pictures change as the talk proceeds, and register emotions to illustrate the points made. The machine's talk went something like this:

It argued that machinery has been slandered, that instead of throwing men out of work it puts men to work. Thus in 1870, declared the mechanical voice, only 324 persons out of every 1,000 in this country were gainfully employed, whereas the present rate of employment, after all the labor-saving machinery put into operation, is 400 persons per 1,000. While population has risen 218 per cent, employment has risen 291 per cent.

Take office workers. In 1860, with virtually no office machinery, there were 4,369 clerks and bookkeepers per million population. In 1930, with all the elaborate office mechinery in use, there were 39,805 office workers per million population, an increase of more than 1,000 per cent.

It sounds impressive. If machinery, then, hasn't thrown people out of work, it must be men that have done it. The machines should look into that question.

FLIRTATION.

As I was walking down the street
As pious as could be,
A pretty girl I chanced to meet
Who winked her eye at me.

My foolish age has long flown by
And I am fat and staid,
And it's been many years since I
Have flirted with a maid.

My mind was on the day's affairs,
Which I should soon discuss,
As with my very gravest airs
I strode toward a bus.

But fifty-four I find is not
Immune to woman's wiles,
Although 'tis true I had forgot
How dangerous are her smiles.

And suddenly I chanced to see
This siren on my track,
So when the maiden winked at me
I winked the lady back.

Although I was on business bent,
To chat with her I stayed,
Which shows how men of good intent
By woman can be swayed.

She stuck me for an ice cream cone
Then ran along to play,
And left me there to wait alone
For the bus to come my way.

VICTORIAN SCHOOL READING.

The celebration of the 100th anniversary of the old McGuffey school readers, at Oxford, Ohio, is an odd and interesting event, which would certainly astonish the modest William Holmes McGuffey himself. He would be especially surprised that "McGuffey societies" should be organized to preserve his memory and the fame of his books.

Henry Ford is largely responsible for this movement, having aroused national attention a few years ago by his earnest collection of the McGuffey series of school readers. There are now numerous fans with large and valuable collections, and the compiler's fame is secure with the museums, at least.

They were grand old books, even though the present generation may smile at their solemn moralizing. They must have been genuinely readable in their time, for Professor McGuffey is said never to have sent a book, or a reading lesson, to the printer until it had stood the test of being read to children outside of school and holding their interest.

Tastes and standards have changed, so that our literary outlook is vastly different from that of the last century, yet millions of men and women remember these old reading lessons with pleasure, and many of their grandchildren might like them today in spite of the quaint Victorian flavor running through them. They were not "sophisticated," but there was something about them that went into the mental and moral make-up of this nation for three generations, and isn't gone yet.

BEER DELUGE.

We used to think of Germany as the great beer-drinking country. Today the United States is probably in first place. Consumption has rolled up tremendously. In June it amounted to 5,600,000 barrels, a gain of 30 per cent over last June. If the present rate of sales continues, the total for 1936 will be more than 53,000,000 barrels, says the Brewers Association.

Bottled and canned beer make more than one-third of this deluge. Sales in these receptacles increased 51 per cent in the first half of this year. The invention of beer cans alone is responsible for a great increase in popularity of beer.

Many Americans don't care for such eminence. There are some moral and social problems involved. These things, though, its defenders claim for beer: That it tends to make people contented, and that at its worst it is far less harmful than hard liquor.

The country's No. 1 fisherman, as he comes back from vacation, will probably think he has to start right in talking about public affairs again, when people would rather know about the fish.

This radicalism is going too far, we heard of a housewife the other day who was threatening a sit-down strike if she didn't get a bigger allowance.

RESTORING INDIAN LANDS.

The Indians need more land. An inventory made by the Office of Indian Affairs reveals that they no longer have enough land to support their own population on a subsistence level. An additional 25,000,000 acres of tillable land is required for their adequate self-support.

Two-thirds of the Indian group are either landless or own insufficient land to make a living. Much of it is unproductive. For 50 years it has been the policy of the federal government to dispose of Indian land and timber, paying cash to individual Indians. Reservations have been broken up in this way and titles to pieces of land have been allowed to Indians who could sell or lease to white farmers. In this way, 80,000,000 acres of land have slipped away from the Indians since 1887. They have also dissipated the liquid assets they received in exchange for their land.

Doubtless some people think the Indians have no particular rights which need to be respected. Even so, it is small and mean for a great nation to grind down into poverty and helplessness any group of its people.

FAMILY AID.

An effort is being made in many places to restore family responsibility toward relatives on relief. In the days when poverty was a problem of private social agencies, neglected adult children were often sent to court to compel them to provide for indigent parents. The practice was dropped as whole families were jobless and had to go on public relief.

Early in the depression relatives did a good deal for each other until resources were exhausted. Lately, with work and wages gaining, there has been too little effort to take up again the financial burden of destitute parents or other relatives.

Social responsibility begins at home. It is as important to the American backbone as to public finance to restore family self-help.

"Apiphobia," a doctor explains, is "morbid fear of bees and their sting." That's what wrecks a car when a bee flies in.

Another good old American custom is abolished by the electric age. There are no clocks to wind before going to bed.

STATE HIGHWAY COMMISSION SETS BUDGET FOR YEAR

AUSTIN, Aug. 4.—(AP)—The highway commission announced today adoption of a budget of $7,492,200 for maintenance of roads during the next fiscal year, which begins Sept. 1.

This was an increase of approximately $218,000 over the present budget. J. B. Early, engineer, said 444 miles had been added to the state highway system the past year, bringing the total to 20,748.

The commission appropriated $50,000 to repair damage in Victria, Gonzales, DeWitt and Lavaca counties caused by the disastrous flood several weeks ago.

An additional $20,000 was appropriated for operation of the Bolivar Ferry near Galveston during the current year. The commission asked the public works administration for 45 per cent grants on the overruns on the new Galveston causeway and the large Neches river bridge between Port Arthur and Orange. Both spans cost considerably more than originally estimated.

LOANS AND GRANTS PENDING FOR TEXAS REACH HIGH FIGURE

MORE THAN FIFTY-THREE MILLIONS IN WORK APPROVED BY ALL DIVISIONS

WASHINGTON, Aug. 5.—(AP)—Public works administration records show Texas requests for PWA loans and grants pending total $176,526,255, of which $53,884,502 is approved by all divisions and awaits presidential allotments.

Officials say release of money for some of these projects likely will be forthcoming in the next several weeks, depending, primarily, upon documentary evidence that any one of them could be constructed entirely with labor on relief rolls.

The money will come from a $300,000,000 portion of the 1936 work relief bill but will be allotted, in keeping with President Roosevelt's orders, only when sufficient needy workers can be found.

Of the 422 projects in the $53,884,520 total, these are the largest, PWA records showed:

Port Arthur dam, $12,360,000; San Antonio electric plant, $4,950,000; Wharton county, highways, $1,706,000; Dallas, courthouse, $1,125,000; Wichita Falls, waterworks, $1,000,000; Corpus Christi, highways, $927,000; Houston, city hall, $818,181; Temple, lighting plant, $175,000; Kountze, highways, $717,300; Waco, courthouse and jail, $600,000; Henderson, highways, $582,885; Denton, buildings, $572,727; Texarkana, electric plant, $545,000.

Unapproved Projects.

In the remaining projects, involving loans and grants of about $123,000,000, which have not won the approval of PWA, the largest were:

Austin, gas mains, $46,345,058; San Antonio, sanitarium, $15,038,500; State of Texas, highway improvement, $8,900,000; San Angelo, power and water, $6,200,000; State of Texas armory, $6,000,000; New Braunfels, dams, $3,000,000; San Antonio, gas plant, $2,492,550; Comal, reservoir, $2,023,815; Wichita, Falls, gass distribution system, $1,175,000; El Paso, buildings, $1,277,500.

Among other projects approved by PWA and awaiting allotments from the president, are: Austin, dormitory, $103,363; Goose Creek, electrical distribution, $224,000; Nacogdoches, dormitory, $189,090; Paris, paving, 130,909; Lubbock, dormitory, $350.009; Longview, city hall, $50,400; Wichita Falls, drainage, $345,454; Lubbock, high school, $36,900; Denton, residence, $22,500; Fort Worth, high school, $69,750; dormitory, $11,672; Dallas, school, $18,182; Houston, street improvements, $405,000; Dallas, school, $14,850; Sulphur Springs, street improvement, $13,081; Fort Worth, library, $400,000; Dallas, water works, $100,000; Temple, gymnasium, $85,207; Palestine, gymnasium, $27,818; Highland Park, waterworks, $128,250; Galveston, hospital, $100,620; Denton, stadium, $5,400; Big Spring, waterworks, $500,000; Wichita Falls, athletic field, $9,000; Tyler, school improvement, $207,000; Midland, paving, $58,000; Sherman, auditorium, $100,000; Mesquite, waterworks, $425,454; Houston, paving, $83,520; Wichita Falls, hospital $102,150; Houston, waterworks improvement, $450,000; Austin, highway (three items) $361,207; Iowa Park, waterworks, $40,000; Waco, gymnasium, $50,909, auditorium, $30,959; Houston, zoo, $21,272; Lubbock, courthouse, $9,000.

QUESTIONS THAT ARE ASKED ABOUT BANKING
"What does a Bank mean by 'Uncollected funds'?"
This question can best be answered by an illustration. Suppose you receive from John Jones a check for $10 writteon on a bank in another city. You bring the check to us, endorse it, and deposit it in your checking account here.
Your account is credited with $10 on our books. This $10 then becomes "uncollected funds" until we send the check to the bank on which it was drawn and receive the money or equivalent credit.
You do not have the money in your account to draw upon until we collect it. The money belongs to John Jones until the check is presented to his bank for collection.
Through the American system of correspondent banking we are able to handle the collection of checks from one city to another with ease and rapidity for the convenience of our customers.

AMERICAN LEGION NAVARRO COUNTY FREE FAIR OPENS TUESDAY

MANY FEATURES FOR ENTERTAINMENT AND PLEASURE VISITORS

FAIR BE FORMALLY OPENED WITH BIG PARADE TUESDAY AFTERNOON

Final preparations are now under way for the opening of the second annual Navarro County Free Fair next Tuesday on the circus grounds on South Ninth street under the auspices of the Johnson-Wiggins Post No. 22, American Legion, and the Drum and Bugle Corps, according to H. G. Gorrod, post commander of the unit.

Extensive premium lists for the fair were announced several weeks ago, and the final catalogue was distributed within the past few days, officials reported. They also announced that they had been informed that fifteen of the seventeen home demonstration clubs in Navarro county would have exhibits in the fair quarters, in addition to their numerous individual contest entries. The premium list calls for awards of approximately $300 in cash.

Parade Tuesday.

The fair will open with a big parade on Tuesday afternoon and will continue through Saturday with special events scheduled each day. Exhibits may be brought to the legion headquarters in the basement of the courthouse between 1 and 5 p. m. Friday and Saturday afternoon, officials reported, or they may be taken to the main exhibit tent on the show grounds after 1 p. m. Monday. All exhibits must be in place by 10 a. m. Tuesday morning, the opening day, and judging will start immediately after that hour. Exhibits must remain in place until 6 p. m. Saturday, August 15.

Every community in Navarro county is invited to place an entry of some kind in the big parade to be staged at 4 o'clock Tuesday afternoon. The procession will form on West Second avenue near the courthouse, and then advance to Beaton street, down Beaton to Seventh avenue, then on Seventh to Ninth avenue, and down Ninth to the show grounds. Andrew G. Steele has been named parade marshal, with J. V. Heflin as aide.

All contestants for the special prizes to be awarded to parade entrants must register with Mrs. L. G. Stevenson at Jack and Steve's Filling Station at the corner of North Main street and Fourth avenue.

The parade prize list follows:

For the oldest model automobile driven in the parade, 10 gallons of gasoline.

For the best decorated float, $5 in cash.

For the largest white family in the parade: First prize, $5 in groceries; second prize, $2.50 in merchandise.

For boys and their pet dogs (boys under 11 years), prizes will be awarded for the largest dog, smallest dog and the ugliest dog.

For girls and their dolls (girls under 10 years of age) prizes will be awarded the neatest dressed doll, most comical doll, and largest doll.

Second Day.

On the second day of the fair, Wednesday, the Light Crust Doughboys are scheduled to make a visit to the fair and present a concert at 7:30 p. m.

Thursday night at 8 o'clock a speaking date has been arranged for the county candidates in the run-off primary.

Friday has been designated as "old settlers' day" and prizes will be given to the couple married the longest, the oldest man, oldest lady, and two prizes are offered in an old fiddlers' contest to be staged at 4 p. m.

The concluding day, Saturday, has been designated as "Veterans' Day."

The fair will open each afternoon at 4 o'clock and remain open until midnight.

As a special entertainment feature, the legionnaires have arranged to have Bill Hames Shows, Inc., for the entire week, and the carnival with all of its attractions will be in place and operating Monday night.

The premiums offered in the various contest divisions follow:

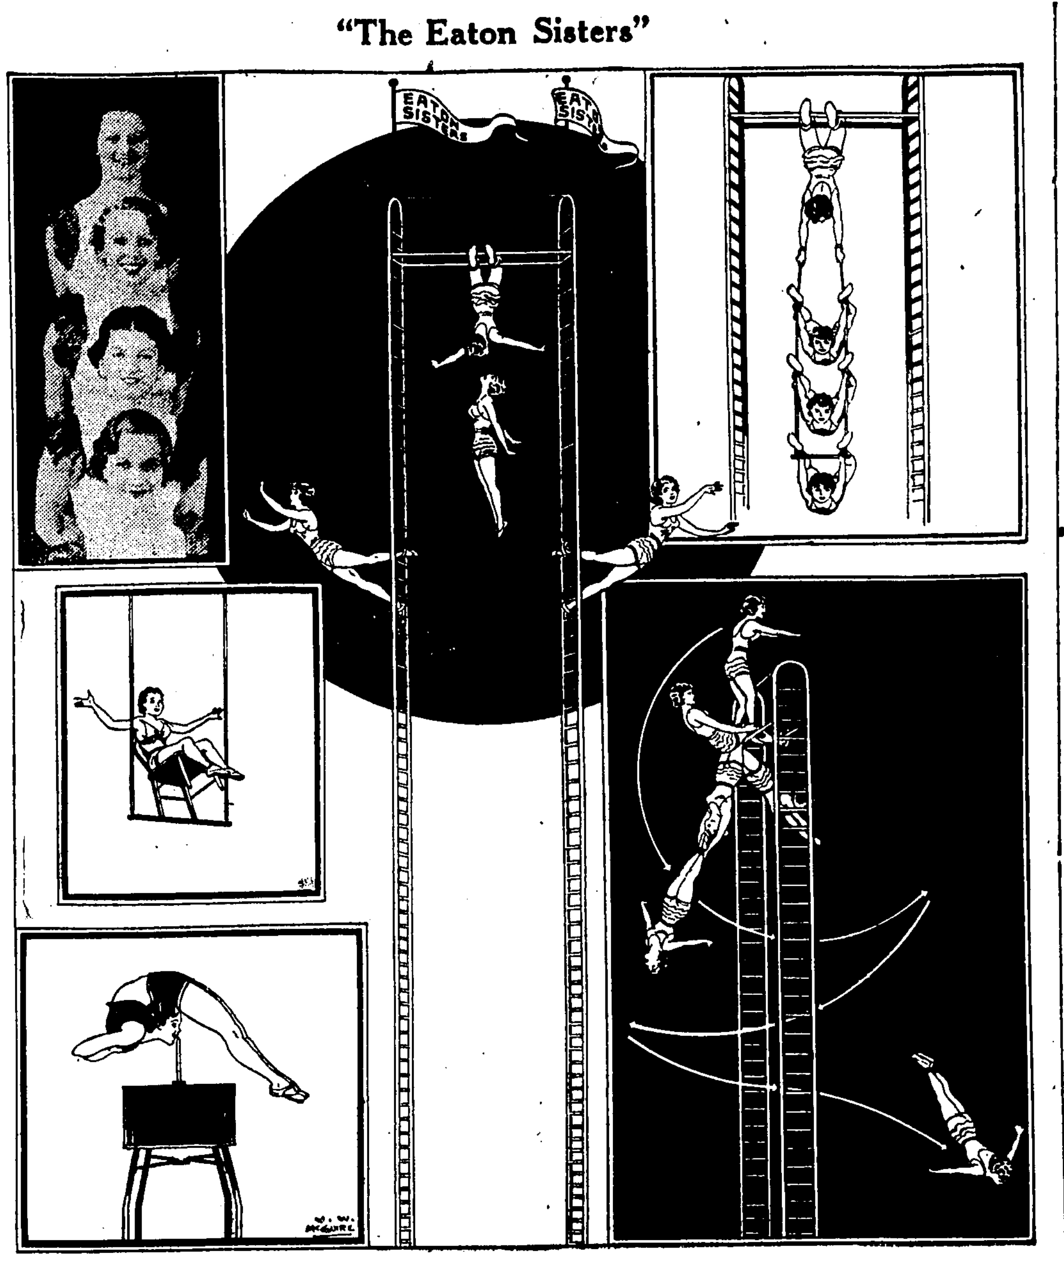
"The Eaton Sisters"



The Eaton Sisters perform on a sixty foot high aerial riggin without the aid of a net or any safety devices. They feature the death defying "hand to hand in's and out, and hands and feet" besides beautiful and sensational iron jaw feats. They present four high class different acts. This is the first season they have appeared in Texas or the South but have been featured at the Chicago Worlds Fair, the New York Hippodrome and other large state fairs. This attraction will be seen daily at the Annual Navarro County Free Fair opening in Corsicana Tuesday under the auspices of the Johnson Wiggins Post of the American Legion.

Rodeo Action Scene

Dawson is planning two big days, Friday and Saturday, with plenty of excitement and thrills for the rodeo fans of Central Texas. A record breaking crowd is anticipated for this feature event.

DAWSON RODEO IS EXPECTED TO DRAW RECORD ATTENDANCE

JOHNSON BROTHERS, LUBBOCK, WELL KNOWN PERFORMERS, IN CHARGE

All preparations have been made for the biggest celebration in the history of the annual Navarro County Rodeo at Dawson Friday and Saturday when this event is opened with a big street parade, according to an announcement Thursday by officials in charge.

Johnson Brothers of Lubbock well-known rodeo officials, sons of "Hackberry" Johnson, now in charge of the state and federal fever tick eradication work in Navarro county, are in charge. All cowboys within a radius of 100 miles of Dawson have been invited to participate. Special music will be furnished by the I. O. O. F. Home band of Corsicana and the Johnson-Wiggins Post No. 22, American Legion, drum and bugle corps.

Attractive prizes have been provided for the winners of the barious events.

Parade Friday Afternoon.

The parade will be staged Friday afternoon at 1:30 o'clock while the first show will start at 2:30 o'clock Friday afternoon.

A bunch of high jumping outlawed bucking horses from the Texas penitentiary will be used. Bronc riding will be featured while wild Brahma cattle will be on hand. A calf roping contest and other features have been provided.

Hack says: "Riding a steer is like arguing with a woman. Looks easy enough if you ain't tried it."

Prizes to be awarded for livestock brought to Dawson Friday include:

Best sucking horse colt, $2; best sucking mule colt, $2; best year-old horse colt, $2; best year-old mule colt, $2; best single mare, $1.50; best span mares, $2; best span work mules, $2; best saddle horse or mare, $2; second best saddle horse or mare, $1; most graceful lady rider, $1; best dressed cowboy, $1; best dressed cowgirl, $1.

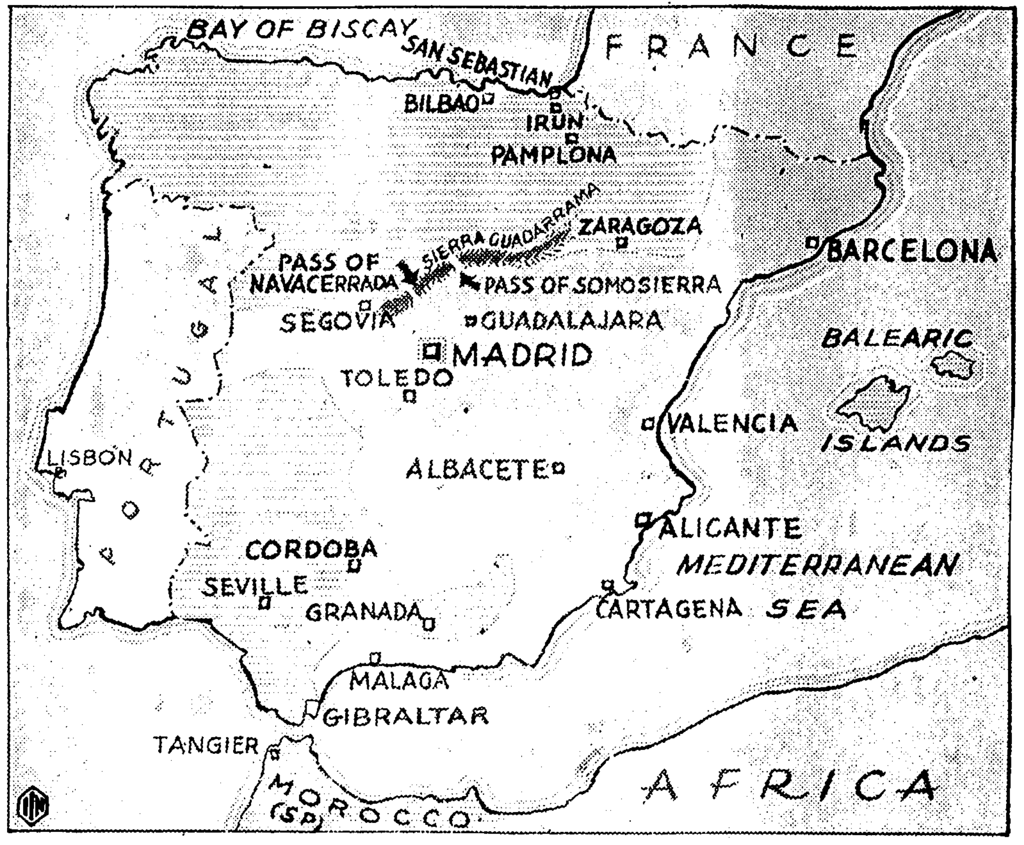
Turning Point Seen Near in Spanish Revolt



One of the fiercest civil war conflicts in modern history continued to rage in the rocky passes of the Guadarrama mountains north of the Spanish capital of Madrid as rebel and government forces launched attacks and counter-attacks. Mounting death tolls bespoke the desperate nature of the fighting as revolutionaries concentrated on the historic capital after seizing control of the southern provinces around Seville and the northern section indicated by the shaded portions on the above map. San Sebastian in the north and Malaga in the south were rebel objectives while loyalists sought recapture of Saragossa and Toledo after regaining possession of Barcelona.

Husband Exposes Star's Diary

With her daughter

Dr. Franklyn Thorpe

Charging that Mary Astor, film star and his former wife, was an improper person to raise their child, Dr. Franklyn Thorpe fought her action to obtain custody of their daughter by bringing into court alleged quotations from her diary. Seeking to show that Miss Astor was not the proper person to have custody of their daughter, counsel for Dr. Thorpe read excerpts from the diary purporting to admit she "was a champion at making mistakes". At the same time, Miss Astor sought to make her ex-husband admit that he was married to "Lillian Lawton Miles" at the same time he purported to be married to her.

Refugees From Spanish Revolt

Raquel Rojas

Alice Beckett

Among the Americans caught by the revolution in Spain was Raquel Rojas, 20-year-old Los Angeles dancer, left, and Alice Beckett of Cheney, Kas., right. Miss Beckett and her sister, Lois, both teachers in Texas, were conducting a student tour through Spain and were believed to have taken refuge in the Spanish embassy at Madrid. Miss Rojas, known in private life as Janet Gaye, has been unaccounted for since July 16.

Coughlin Speech in Dakota Stirs Controversy

Farm rally at Hankinson

Rev. Coughlin and Congressman Lemke

When the Rev. Charles E. Coughlin was quoted as saying during an address near Hankinson, N. D., above, that farmers should repudiate their debts, considerable controversy was aroused. The Rev. Coughlin later denied the statement, explaining that he had said unless something were done to aid the farmers they would be "forced" to repudiate. His ecclesiastic superior, Bishop Michael Gallagher of Detroit, in Rome to visit Pope Pius XI, declined to censor the radio priest for his outspoken attitude. The Rev. Coughlin's appeal to the farmers came during a speech in support of Congressman William Lemke, Union candidate for president, with whom he is shown inset, as they spoke before a farm gathering and "homecoming" for Lemke who lives at Fargo, N. D.

NEW AGE LIMIT RULE EFFECTIVE IN INTERSCHOLASTIC LOOP SEPT 1

AUSTIN, Aug. 6.—(Spl.)—Only one new rule goes into effect in the Interscholastic league this year, that establishing a 19-year age limitation for all contestants in any league events, whether literary or athletic, according to Roy B. Henderson, athletic director for the University of Texas Bureau of Public School Interests. This bureau serves as the state office for the league.

This new rule, replacing the former one setting the age limit at 20 years, decreed that any contestant who becomes 19 years of age on or before September 1 is ineligible for all league contests throughout the entire school year.

Applications are now being received on the 1936-37 league football schedule, Mr. Henderson said. September 15 is the deadline for registering for this sport.

Re-districting has been placed in effect, so that more district and regional honors are afforded for league football teams. Districts in Class A, in which a state championship is determined, have been reorganized somewhat; one new region, embracing our new districts, has been created in Class B, making 11 regions in which regional championships are determined; and three new districts, making a total of fifteen, have been set up in Class C. In Class C competition is carried only to the district tournament.

It should be pointed out that district races in all league events are in the complete control of the district committee, elected by the schools themselves, Mr. Henderson said.

SIXTY ENGLISH MINERS ENTOMBED BY EXPLOSION

BARNSLEY, York, Eng., Aug. 6.—(AP)—More than 60 men were reported entombed today in a coal mine explosion and rescue crews which brought out eight bodies said there was little hope any of the remainder were alive.

Followed by fire, the explosion occurred in one chamber of the Wharncliffe, Wood, Moor Colliery.

Rescue workers hunted anxiously through the smoking, fire-ravaged subterranean caverns on the chance that some of the miners, whose numbers were put as high as 67, might have escaped with their lives.

Blooming Grove Man Has Interest In New Cotton Gin Method

NEW YORK, Aug. 7.—(Spl.)—A patent was granted this week by the United States Patent Office to Kermit B. Cumpston of Blooming Grove and Pressley E. Wildcat Well Near Silsbee Blows Out And Likely Be Lost

SILSBEE, Aug. 6.—(AP)—The Republic's wildcat Brooks No. 1, near here, 20 feet in the Cook field series sand at a depth of 6,971 feet, blew out of control yesterday while workmen attempted to run tubing and set screening.

Ground for 60 feet around the hole cracked and the well blew out through a water well which cratered 150 feet away.

Workers today attempted to clear wreckage in order to cap or kill the well. Flow was estimated at 500 barrels of oil and 60,000,000 cubic feet of gas.

The derrick collapsed five hours after the hole began cratering. The engine foundation was left standing on end.

Officials said the well would probably be a loss but were enthusiastic over the showing.

Juvenile Charged In Death of Girl Ft. Worth Thursday

FORT WORTH, Aug. 6.—(AP)—Aron Cook, 17, of Borger, today faced a juvenile delinquency complaint specifically charging failure to render aid as a result of the traffic death Tuesday night of Mary Lou Atkins, 11, fatally injured when struck by a truck driven by Cook.

Friends of Cook were attempting to make bond for him. Edward Eckert, 15, also of Borger, who was in the truck with Cook, was released Wednesday after making a statement.

Both youths said they did not see the girl in time to stop. Cook said he was "frightened and did not know what to do" after his truck hit the girl, in explaining why he drove on for two blocks. He had turned the truck around and was returning to the scene when officers arrested him.

The boys came here for a load of watermelons. Unable to make a deal here they had started for Montague county when the accident occurred on North Main street.

KEEPING CLEAN ON A TRIP

CLOTHES FOR A TRIP

How to keep your clothes clean, and to dress becomingly as well as to keep cool and fresh, is told by Miss Forbes today, continuing her auto trip.

E. R. Forbes

Continuing my answer to the girl who wanted to know how to make a long auto trip without ruining her looks (and today I several more letters about that), let me tell you how we dressed. For the right clothes make the problem easy.

Before leaving Hollywood, I bought what they call out there a play suit. It is made of seersucker, which, as you know, washes easily and needs no ironing. It consists of a shirtwaist, a skirt which buttons down the front, and shorts. It is a gay blue and green plaid and it cost me $3. It is well cut; the skirt wraps over in front; it needs no underclothes. It is cool and looks well everywhere, except, of course, in large cities, where people are dressier. At the end of each day's trip the three pieces were put into a large basin of warm water and soap chips, swished around for a minute (a good preliminary this, for oiling and cleaning the nails), rinsed twice quickly and put up on a hanger. In the morning there was a clean, crisp, fresh outfit to put on. And think of arriving at the end of a long trip with a bag of clean clothes, instead of the jumble of laundry one generally has!

I had, besides, a neat new arrangement, which consists of a large blue handkerchief, folded on the bias, to tie over the head. But just over the eyes a visor, covered with the same material as the handkerchief, was sewn in. By tying this over the hair, the hair was kept neat and in place, and clean, the eyes were shaded from the glare (of course, we wore dark glasses, too), and the head was kept cool. Some days, though, it was too hot even for this- And we wore thin ankle socks, which also got washed every night, and tennis shoes or canvas sandals.

This is the ideal way to travel in a car in hot weather. We carried, for evening or cool days, a dark linen dress and a simple flannel one as well.

T. F.—The trouble with eyelash tonics is the risk of getting them into the eyes. Even the simplest of them, such as a rich oil that could not injure the eyes, could cause smarting sensation and reddening of the eyeballs for hours. You may easily build up a better condition by improving the circulation along the edge of the eyelids; that alone will cause the lashes to grow new hairs and also strengthen *those that* are there, You cannot massage such thin and delicate muscles as those of the eyelids; at least, not unless you have a very delicate and also *firm touch*, but you may get this same effect if you pull the lashes. To do this, grasp a number of hairs at a time, and give a firm tug, then let go and rest an instant. Repeat the tugs and rests until all the lashes have been cared for a number of times, and you feel the warmth throughout the eyelids from the quickened circulation.

New York Cotton Higher

NEW YORK, Aug. 6.—(AP)—Cotton futures opened steady, 2 to 4 higher on steadier Liverpool cables and trade buying. Oct. 11.96; Dec. 11.99; Jan. 11.98; March 11.99; May 11.98; July 11.95.

There was a moderate demand from the trade and houses with foreign connections at the opening, while offerings were not large.

After the initial buying orders had been supplied the market sagged under further liquidation which became a little more active when the weather man was posted showing a trace of rain in Oklahoma.

The setback carried prices off to about yesterday's closing quotations. General business continued quiet with traders, both here and abroad, evidently inclined to await for Saturday's government crop report.

December selling at 12.00 at the start, eased off to 11.94 compared with 11.95 at the close yesterday.

Prices worked to about yesterday's closing quotations during early trading, but the market steadied later in the morning on a little trade buying and covering. At mid-day Dec. was selling around 11.97, with the general market 1 to 3 points net higher.

Futures closed steady, 6 to 11 higher. Spot steady; middling 12.65.

New Orleans Cotton Higher.

NEW ORLEANS, Aug. 6.—(AP)—Small gains were in the majority at the opening of today's cotton market.

Business was limited during the early dealings, with scattered buying by the trade holding prices higher.

Oct. opened at 11.93, up 2 points and then moved narrowly around this level during the first half hour. After opening at 11.93 Dec., Jan., March and May followed a similar procedure.

The market dipped and recovered again during the morning and was holding around 25 cents a bale higher when dealings passed the halfway mark.

Oct. sold at 11.93, Dec. at 11.96 and May at 11.97 during the morning.

DALLAS CONTRACTOR SUBMITS LOW BID ON HOSPITAL BUILDING

AUSTIN, Aug. 6.—(AP)—Hal C. Dyer of Dallas submitted the low bid of $97,640 today for the general contract on a new psychopathic unit at the Wichita Falls State Hospital.

The bids and architect's fee overran the $125,000 appropriation by more than $1,000, and representatives of the board of control said slight changes would have to be made in the plans.

Martin Brothers Plumbing company of Dallas was low on the heating, plumbing and gas contract at $21,336. The Jack Hurst Electric company of Quanah submitted the low electrical bid of $2,285.

Bids will be tabulated tomorrow on an addition to the psychopathic hospital at Galveston costing around $127,500. The board of control will award contracts later in the month.

Negress Seriously Wounded; Another Negress In Jail

Irene Manuel, negress, is in the Navarro county jail on a formal complaint of assault with intent to murder, and Carline Hyseon, also a negress, is in the P. and S. Hospital in serious condition as a result of gunshot wounds following an affray on East Ninth avenue, between Eighth and Ninth streets about 12:15 Thursday.

The wounded negress was struck by bullets in both shoulders, the neck, and right hip, and then walked to the hospital for treatment.

The gun-wielder was arrested by Acting Chief of Police Bruce Nutt and later transferred to Deputy Sheriff Jack Floyd.

Vice President And Governor of Illinois Meet at Centennial

DALLAS, Aug. 4.—(AP)—The Texas Centennial Exposition provided a background today for the meeting of Vice President Garner and Illinois' democratic governor, Henry Horner.

Gov. Horner and Texas' favorite son were to meet in a brief ceremony opening Illinois' day at the big show.

A luncheon honoring the governor and Illinois visitors was arranged.

The Garner day attendance was 34,716, lifting the grand total to 2,517,307.

Oats No. 2 red 53 1-2 54 1-2; No. 3 red 52 1-2 53 1-2.

Grains Rally.

CHICAGO, Aug. 6.—(AP)—Although announcement the United States had warned Spain against interference with American property was simultaneous with a late sharp rally of grain prices today market experts gave other reasons.

Widespread demand for immediate delivery of wheat was most mentioned. This was associated with season new high price records for such wheat today, especially at Winnipeg. Liberal export purchases of Canadian wheat today were noted upwards of a million bushels.

Liberal export purchases of Canadian wheat were also a stimulating factor. Another bullish influence was a notable curtailment of rural offerings of corn.

After a sudden jump to more than a cent in some cases above yesterday's finish, wheat closed irregular, ranging from 1 3-8 lower to 1-2 higher, Sept. 113 5-8 3-4, Dec. 113 1-8 1-4, corn unchanged to 1-2 up, Sept. 105 5-8 3-4, Dec. 94 1-2 5-8, oats 1-4 to 3-4 off, and provisions down 5 to 17 cents.

Allred to Campaign For Pardon Power Amendment Change

DALLAS, Aug. 6.—(AP)—The proposed constitutional amendment placing the major portion of pardoning power in the hands of a board will receive Gov. James V. Allred's active support in the November general election.

The governor said he would not campaign for other proposed constitutional changes and said he was still uncertain about calling a special session of the legislature. His course, he said, will be determined from reports of the old-age assistance board.

BUYING IN STOCK MARKET MET SOME PROFIT TAKINGS

STEEL, INDUSTRIALS, AIRCRAFTS AND MOTORS WERE STRONGER TODAY

NEW YORK, Aug. 6.—(AP)—Warm trade winds fanned stock market enthusiasm today and buyers pushed a selected group of shares fractions to around 2 points higher.

Brisk bidding for favored issues failed to whet Wall Street's appetite for a number of specialties, however, the close was firm. Transactions approximated 1,200,000 shares.

By VICTOR EUBANK
Associated Press Financial Writer

NEW YORK, Aug. 6.—(AP)—Although buying of steels, industrial specialties, aircrafts and motors put wind in the stock market's sails today the list had to face across currents of profit taking in other issues.

Coasting forward fractions to a point of so were U. S. Steel, Bethlehem, General Motors, Chrysler, Douglas Aircraft, Allis Chalmers, Curtiss Wright, International Harvester and Anaconda.

Allied Chemical pushed up 2 points or so after an early dip.

Among the most active shares was Radio which yielded a little. The preferred was down about 2 points at mid-afternoon.

Sagging fractions to a point or so were Western Union, Westinghouse, Electric, Deere and American Can.

Utilities were quiet and mixed. With the exception of Union Pacific which declined more than a point rails improved a bit.

Wheat, corn and cotton slumped. Buying of low yield issues brightened the bond market. Foreign currencies were mixed.

Analysts said buyers of steel shares had taken encouragement from increasing strength of scrap steel prices. Always closely watched by financial circles as a barometer of the industry, the latest advance was seen in some circles as showing that the summer's abnormal production spurt has chopped into raw materials and that producers are desirous of replenishing stocks for fall.

The gain of 28,600 Bell Telephone System stations in July compared with a loss of 22,900 stations in that month a year ago was an important item on the day's recovery calendar, brokerage circles said.

Curb Narrow.

NEW YORK, Aug. 6.—(AP)—The main body of curb market stocks moved in a narrow range with the trend a trifle irregular today.

A handful of specialties provided the main attraction on the upside. Pepperell Mfg. and Bohack advanced a point and Bauman Pfg., jumped 10 on a single sale.

In contrast was a large group of industrials, oils and miscellaneous issue, which either stood still or slipped back for minor losses. Included was Gulf oil.

THIRTY PER CENT INCREASE IN TEXAS RETAIL STORE SALES

PRACTICALLY EVERY KIND OF RETAIL BUSINESS SHOWED JUNE GAIN

WASHINGTON, Aug. 4.—(Spl.)—Retail sales of 730 independent stores in Texas reporting to the Department of Commerce in cooperation with the Bureau of Business Research, University of Texas, showed an increase of 30 percent in dollar volume for June 1936 as compared with the same month for 1935, according to preliminary estimates. This report, which covers the larger independent stores, represents 21 kinds of business 8 of which, due to an insufficient number of reports, are contained in miscellaneous or in group totals.

When adjusted for the number of working days, June 1936 sales showed a decrease of 1.5 percent from May 1936. There was one more working day in June than in May. Without adjustment either for the number of workng days or for seasonal influences, June sales were about 2 per cent higher than in May.

All of the kinds of business represented except grocery stores not handling meats, which recorded practically no change, showed increases for June of this year over June a year ago. The greatest gains were those of 69 percent shown by lumber and building materials dealers, 60 per cent by furniture stores, and 50 per cent by the total furniture and household appliances group.

Between May and June of this year women's specialty shop sales dropped about 11 percent, total grcery sales declined 4.5 percent, department store sales declined about 4 pcent, and family clothing store sales declined 3 percent. The rest of the lines recorded increases, the greatest gain being registrd by filling stations whos June sales were 20 percent higher than in May.

Of the firms reporting for June 550 (75.4 percent) reported increases over June 1935: 160 (21.9 per cent) showed declines and 20 2.7 per cent) registered a change of less than 1 percent.

Transient Negro Wounded In Trap Set By Farmer

TEXARKANA, Tex., Aug. 6.—(AP)—A shotgun trap set by Chesley Preswood, farmer, wounded critically Herman Simmons, 66, negro transient from Decherd, Franklin county, Tenn.

Physicians said Simmons was near death. The charge struck him in the abdomen.

Chesley said he had been troubled with fruit and clothing thefts. He said he nailed the shotgun in the pantry and tied a cord to the trigger so it would be discharged if the window were raised.

DALLAS MAN SLAIN IN LIQUOR STORE FIGHT TUESDAY

BROTHER OF SLAIN MAN TRIES TO ENTER JAIL TO SLAY KILLER

DALLAS, Aug. 4.—(AP)—Sauve, moustached George W. Redston, who told officers he was formerly an investigator in the Chicago state attorney's office and bodyguard for Anton Cermak, Chicago's assassinated mayor, was arrested today after the killing of A. B. Farrow at his luxurious downtown liquor spot.

Three hours later the slain man's brother, Champ Farrow, armed, stormed the city jail with the proclaimed intention of slaying the accused killer. He was overpowered.

Inspector of Detectives Will Fritz said the Chicagoan admitted he fired the shot but did not know he had killed Farrow. He escaped in a taxicab but was arrested at a downtown hotel several minutes later.

"District Attorney Robert L. Hurt accepted a charge of murder filed against Redston in Justice of the Peace John Baldwin's court."

Champ Farrow appeared at the city jail shortly after dawn, held a pistol on the elevator boy and said he was "going to kill the man that killed A. B.," officers said.

Jail Supervisor S. C. Martindale lunged into the elevator, struggled with Farrow and wrested the gun from him. Farrow was placed in a solitary cell, charged in county court with carrying a pistol and aggravated assault upon an officer and later freed under bonds of $500 in each case.

Tells of Killing

Holland Farrow, another brother, told officers that he and an attendant at the liquor spot, attempted to remove two men from the premises. One of them suddenly drew a gun at the door, wheeled and fired. The bullet struck A. B. Farrow, entering his arm and ranging through his chest.

Customers screamed as the killer leaped in a taxicab and drove away. Holland Farrow grabbed a pistol and fired two shots at the cab, one of which went wild and the other smashing a plate glass window in another night spot across the street.

Police said the Chicagoan appeared at the city hall and asked for Police Captain Max Doughty, and when informed he was off duty, disappeared.

He told Inspector Fritz he went by his home, changed clothes and went to a hotel, where he planned to meet friends.

Police, tipped that he might appear at the hotel, seized him as he talked over a house telephone.

Inspector Fritz quoted the man as saying:

Just Got Job

"I didn't know it hit anybody. I had been out to the Centennial and managed to get a job. I was supposed to start work Tuesday. The man out there gave me a $10 advance and I came back to town and went to this place. The next thing I knew, bang—it had happened."

The Chicagoan said Farrow had threatened him and that Holland Farrow and another man had "manhandled" him.

He told officers he was married and had three children, aged 13 months, four years and 10 years. He has resided here more than two years but said he formerly worked as special investigator in the state's attorney's office at Chicago and had served as Mayor Cermak's bodyguard and secret investigator.

He said he was not with Cermak when he was fatally shot in Florida in an attempted assassination of President Roosevelt.

Farrow served on the Dallas police force from 1923 to 1930.

DALLAS, Aug. 4.—(AP)—Champ Farrow, brother of a man slain in a liquor store fight today, was arrested after police said he tried to force his way into jail to kill his brother's slayer.

A. B. Farrow, 41, liquor store proprietor and former policeman, died from bullet wounds officers said were inflicted by a man who told them he was formerly a bodyguard of the late Mayor Cermack of Chicago.

Jail Supervisor S. C. Martindale said Champ Farrow stormed into his office with a drawn pistol after the alleged killer was arrested.

Martindale quoted Farrow as saying: "I'm going to kill him."

The supervisor said he struggled with Farrow and disarmed him.

Police filed in county criminal court charges against Farrow of carrying a pistol and aggravated assault on an officer.

Holland Farrow, another brother said A. B. Farrow was shot when two attendants in the liquor store tried to remove two men from the place. He said the pair was taken to the door and one turned and fired one shot, fatally wounding Farrow.

Holland said he ran into the street and fired at a taxicab the two men boarded. He said his bullets missed their mark.

Police arrested the alleged slayer in a downtown hotel a few minutes later.

LABOR

(Continued from Page One)

tion," he announced. The decision of the executive council will not change the policy of the C. I. O., nor will it have any effect upon the organization activities of the committee."

The executive council, whose craft members do not like the Lewis method of overlooking craft lines in organizing work, accused Lewis of splitting labor by forming the C. I. O. as a rival to existing A. F. of L. unions.

Must Accept Responsibility

"Those who split and divide labor through the creation of a dual movement must accept responsibility for their action," the "verdict" said. It described Lewis and his associates as "ambitious men" bent on "enforcing the acceptance of minority rule within the A. F. of L."

Lewis flared back that the council's action was one of "incredible and crass stupidity" and that it was "dictated by personal selfishness and frantic fear."

Among those in the group penalized by the decision, besides Lewis' miners, are David Dubinsky's Ladies Garment Workers, Sidney Hillman's Amalgamated Clothing Workers and the oil, textile, flat glass, smelter, automobile rubber, and steel workers.

ROOSEVELT CALLS IN PARTY LEADERS ON CONGRESS RACES

HYDE PARK, Aug. 6.—(AP)—President Roosevelt, calling in party leaders for the second time this week, sounded out prospects today of retaining the democratic majority in congress.

Two callers on his list were Rep. Drewry of Virginia, chairman of the democratic congressional campaign committee, and Senator Lewis of Ilinois, head of the corresponding senate group.

Drewry recently studied political conditions on a tour of several states. Lewis brought a report on Illinois and other states with which he is familiar.

Supplementing a conference Monday with leaders of the democratic national committee, Mr. Roosevelt arranged to talk first with an old friend, Judge Thomas H. Dowd, of Erie county, New York.

With Dowd and Herbert C. Pell former New York democratic chairman, he expected to scrutinize party prospects in the empire state.

Mayor F. H. Laguardia of New York was next on the calling list, in his capacity as chairman of the national conference of mayors.

RHYTHM STEP

A New Kind of Style Shoe with 3 Extra Comfort Features

..INVISIBLE RHYTHM TREADS!

SMART, active Hollywood stars were thrilled with Rhythm Step walking! And amazed to discover that lovely, light shoes like these could actually have extra comfort features! Invisible Rhythm Treads . . . an utterly new idea in foot support . . . are the secret. They buoy up the foot at three *strain* points in addition to the main arch . . . the heel, arch and metatarsal arch, without extra weight! They give an utterly new feeling; like floating along! The young set has fallen in love with Rhythm Step styles! And women who need real foot support are enthusiastic about the new, buoyant ease of Rhythm Step walking . . . right from the start. Without "breaking in!"

SEE HOW INVISIBLE RHYTHM TREADS SUPPORT THE FOOT AT 3 STRAIN POINTS

As your heel pounds the pavement Rhythm Treads cushion the shock and protect delicate nerve centers.

As weight shifts to your arch all strain is absorbed and cushioned... in addition to the usual built-in arch.

As full weight centers on ball of foot the metatarsal arch is supported, keeping delicate bones in position.

CONNALLY WIRES ROOSEVELT ABOUT PWA PROJECTS

DECLARES RULING ELIMINATING TEXAS IS WORKING MUCH HARDSHIP

DALLAS, Aug. 6.—(AP)—Senator Tom Connally said he informed President Roosevelt in a telegram today that the order providing that public works administration allotments can be used only in case where certified relief labor is available, and the failure of the Works Progress administration to certify available skilled and unskilled labor in Texas, are causing great disappointment throughout the state.

"Many municipal bodies have already voted bonds and, in some cases, the bonds have been sold and projects approved by the Public Works administration upon which work was expected to be begun," the senator said.

"The continued enforcement of the order will cause great embarrassment and will prevent the construction of needed public improvements. Representatives of municipal authorities throughout the state in meeting here yesterday insist that Works Progress administration is in error in failure to certify sufficient skilled and unskilled labor for prosecution of projects and propose to submit statistics from the re-employment service to verify their contention.

"Secretary Ickes appears to be anxious to proceed with many public works administration projects. I very strongly urge the modification of amendment of such order to exempt worthy and desirable projects from its operation. Also I strongly urge that a re-survey by the Works Progress administration be made as to available labor in the respective localities affected."

R. R. Owen For Representative

To The People of Navarro County:

There seems to be a purpose on the part of some to mis-state my position with respect to the old age pension. I want to state that from the very inception of the movement I have been sympathetic, and I have the distinction of having presided over the first meeting held in our District Court Room some months ago by friends of the old age pensions. I have been giving my assistance to every move that would provide security for our old and needy people.

I voted for the State Amendment and since the law went into effect I have filled out without charge something like three hundred applications for those seeking pensions. This has meant a lot of free service for our elderly people.. The present law does not meet with my approval in many respects, and all agree that it will have to be amended. I shall work for a law which shall amend it and which will provide appropriate and equal aid under the constitutional provision to all people who come within the meaning of the amendment and a proper pension law enacted thereunder.

I shall insist upon providing adequate funds to pay the pensions and upon such a change in the law as will reduce the cost of administering the law to a minimum.

R. R. OWEN, Attorney,
Candidate for State Representative.

SON, NEARLY 80, MEETS MOTHER, 107 AFTER HALF CENTURY

LOS ANGELES, Aug. 6.—(AP)—Cheered by reunion with her 76-year-old son whom she had not seen since the 1880's, Mrs. Elizabeth McGinnis, 107, spryly cooked him a stack of pancakes for breakfast today.

"Tastes just like ma used to make," grinned Frank Williamston, San Antonio, Tex., farmer over a mouthful.

The son, learning from relatives of his mother's whereabouts arrived here yesterday. Police was enlisted before he finally found her residence.

She threw her arms around Williamston's neck and exclaimed, "My boy!"

Later she asked, "How old did you say you are? Seventy-six? why, you're 80 this coming August."

"How old are you, ma? countered Williamston.

"I'm a hundred and six, going on seven."

They'll go back together to the Texas farm, said the son.

Magnolia to Meet Bazette While Girard Battles Grand Saline

Magnolia Refiners will clash with the Bazette all-star aggregation at Magnolia Park Sunday afternoon at 3:30 o'clock.

The local contingent, after losing to Girard Oilers in their recent series, will be putting forth an extra effort to return to the won column, while the Northeast Navarro county combination is reported to be preparing to flash a strong team against the Refiners in this week's attraction.

The Girard Oilers are slated to oppose the Grand Saline Independents at the Girard diamond Sunday afternoon. Girard sluggers carry plenty of power at the bat and are expected to prove troublesome to the Van Zandt county club.
